## DEDICATION

To the Creator of Heaven and Earth-The Father, the Word, and the Holy Ghost.

Christians who loves Creationism and for those to learn about Creationism.

For those who are involved in paleontology, both Creationists and Evolutionists.

Dinosaurs Are Still With Us.

Mark Falso

## /// INTRODUCTION ///

This book is about creationism and how life is since the Creation Week God mentioned in Genesis chapter 1. First of all, I am not a licensed or a college degreed Paleontologist or archeologist or any professional relating to digging into the past. However, I am Born-Again Christian and was called to preach in this E-book about Dinosaurs. This is a discussion that was repeated throughout generations even ever since Old Testament. Sure, Jesus did not even said the word Dinosaur. It was a term coined in the 19<sup>th</sup> Century. However, the Bible has accounts related to Dinosaurs, Unicorns, and Leviathans. Monsters, cryptids, and still discovering marine life. Because of Earth's age is young 6000 years old, it is no question Dinosaurs, Leviathans and other beasts of the past were with us recently. They should by all means know that **Alligators**, **Crocodiles**, and **Iguanas** as well as **Komodo Dragons** are still among us. They are Dinosaurs. Marco Polo wrote an account of Dinosaurs in China and perhaps ate meat and he said it was delicious. Job in the Bible saw them. He knew what they were. Native Americans and modern Americans mentioned **Thunderbirds** and even **Big Foot**. If people know what legends are and so are folklore, they are actually means true. Evidence of Big Foot may be a different story. Mistaken identity or was that a case of beastity, misidentification such as a standing/walking bear or direct generations of Esau, only the Lord knows.

No question that they are still in existence today. I am referring to Dinosaurs and perhaps some cryptids that are something new. Scientists are always discovering new species every day. Alive or in fossil.

Digging for the Truth is easy, the Holy Bible tells us so and yes, those species are real. Or were real in the past and fossil and word of mouth, both as legends and folklore are true.

I love both archeology and more so in paleontology (or known as palaeontology). I love Dinosaurs. Children do. Found in many museums. Popular in movies and televisions such as ***Jurassic Park*** movies, ***Land of the Lost*** TV series, ***King Kong*** movies, TV series including ***Ancient Aliens***, ***Monsterquest***, ***Digging for the Truth***, ***River Monsters***, ***In Search of***, ***Unsolved Mysteries***, and more. I was first hooked on Dinosaurs thanks to my infatuation with a cute actress named Kathy Coleman on ***Land of the Lost*** TV series back in the 1970s.

We all are living in the “Land of the Lost”. Why? Not only we still have Kathy Coleman still alive, I am referring to lost souls out there! And yes, Dinosaurs are still with us.

While we are living in the “Land of the Lost”, this book is not a college thesis for me to earn a degree although I could have used this as a thesis at a respective Christian college with Paleontology degree. I still do not have money and could not attend to earn that degree. So, this is my make-up thesis so enjoy this book and I pray many of you get saved. Thank you and God bless.

Dinosaurs Are Still With Us.

Mark Falso

## !!!CHAPTER ONE: THE DINOSAURS!!!

The dinosaurs. Triceratops, Velociraptor, Brachiosaurus, and the baddest of all, Tyrannosaurus-Rexes. The oversized giants of its day. In fact, popularized by televisions and movies such as “*Land of the Lost*”, *Jurassic Park/World* movie series, and even *the Flintstones* that they owned a dinosaur. And of course, Barney the purple singing dinosaur. Dinosaurs exhibits in many museums and dinosaur-theme parks. Not even mentioned *Godzilla*. They are bunch of fun dinosaurs and some are make-believe dinosaurs. Museums on the other hand has dinosaurs- real dinosaurs but they all are skeletons dressed to display for people to see for themselves what they looked like. Historical books and even the Holy Bible mentioned dinosaurs. Dinosaurs also were in folklore such as dragons, thunderbirds, and even the mothman. Paranormal or not, they may have had some legacy related to the dinosaurs. Cryptozoologists are still attempting to claim dinosaurs are still here or there. Maybe they are out there. And they are out there. Yes, they are. But not as you think they are.

## //THEY ARE STILL HERE//

Yes, dinosaurs are still with us. You are not looking at the concept of it. Dinosaurs are still around. Of course you know what the word, dinosaur means. In the dictionary, dinosaur means “Fearfully-great Lizards.” It is a Greek word. Dino means “Fearfully-great” while “saur” means “Lizard.” It was coined back in 1842 by Richard Owen. The Greek word for “deino” was first used by Homer in his oral tradition, *The Iliad*. Often times today we use the meaning, “Terrible Lizard” but it was mistranslation by modern man so technically, it is “Fearfully-great Lizard” for a dinosaur.<sup>1</sup>

## //BIBLICAL HISTORY//

Dinosaurs are still here ever since the beginning of time. Since this is a Christian book, we must turn to Biblical accounts in the Holy Bible. The word dinosaur was not coined till 1842, therefore we must use the word in King James Bible, beasts. Beasts can be any animals such as cattle, dinosaur, deer, unicorn, whatever animals that roamed on Earth during the Biblical times.

Dinosaurs were part of the creation. And they were at the Garden for sure. Let’s read Genesis chapter one.

### **Genesis Chapter 1**

**1** In the beginning God created the heaven and the earth.

**2** And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters.

---

<sup>1</sup> 1842 by Wyzant <https://www.wyzant.com/resources/lessons/english/etymology/words-mod-dinosaur-info>

**3** And God said, **Let there be light:** and there was light.

**4** And God saw the light, that it was good: and God divided the light from the darkness.

**5** And God called the light **Day**, and the darkness he called **Night**. And the evening and the morning were the first day.

**6** And God said, **Let there be a firmament in the midst of the waters, and let it divide the waters from the waters.**

**7** And God made the firmament, and divided the waters which were under the firmament from the waters which were above the firmament: and it was so.

**8** And God called the firmament **Heaven**. And the evening and the morning were the second day.

**9** And God said, **Let the waters under the heaven be gathered together unto one place, and let the dry land appear:** and it was so.

**10** And God called the dry land **Earth**; and the gathering together of the waters called he **Seas**: and God saw that it was good.

**11** And God said, **Let the earth bring forth grass, the herb yielding seed, and the fruit tree yielding fruit after his kind, whose seed is in itself, upon the earth:** and it was so.

**12** And the earth brought forth grass, and herb yielding seed after his kind, and the tree yielding fruit, whose seed was in itself, after his kind: and God saw that it was good.

**13** And the evening and the morning were the third day.

**14** And God said, **Let there be lights in the firmament of the heaven to divide the day from the night; and let them be for signs, and for seasons, and for days, and years:**

**15** And let them be for lights in the firmament of the heaven to give light upon the earth: and it was so.

**16** And God made two great lights; the greater light to rule the day, and the lesser light to rule the night: he made the stars also.

**17** And God set them in the firmament of the heaven to give light upon the earth,

**18** And to rule over the day and over the night, and to divide the light from the darkness: and God saw that it was good.

**19** And the evening and the morning were the fourth day.

**20** And God said, **Let the waters bring forth abundantly the moving creature that hath life, and fowl that may fly above the earth in the open firmament of heaven.**

**21** And God created great whales, and every living creature that moveth, which the waters brought forth abundantly, after their kind, and every winged fowl after his kind: and God saw that it was good.

**22** And God blessed them, saying, **Be fruitful, and multiply, and fill the waters in the seas, and let fowl multiply in the earth.**

**23** And the evening and the morning were the fifth day.

**24** And God said, **Let the earth bring forth the living creature after his kind, cattle, and creeping thing, and beast of the earth after his kind:** and it was so.

**25** And God made the beast of the earth after his kind, and cattle after their kind, and every thing that creepeth upon the earth after his kind: and God saw that it was good.

**26** And God said, **Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl**

of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth.

**27** So God created man in his own image, in the image of God created he him; male and female created he them.

**28** And God blessed them, and God said unto them, **Be fruitful, and multiply, and replenish the earth, and subdue it: and have dominion over the fish of the sea, and over the fowl of the air, and over every living thing that moveth upon the earth.**

**29** And God said, **Behold, I have given you every herb bearing seed, which is upon the face of all the earth, and every tree, in the which is the fruit of a tree yielding seed; to you it shall be for meat.**

**30** **And to every beast of the earth, and to every fowl of the air, and to every thing that creepeth upon the earth, wherein there is life, I have given every green herb for meat:** and it was so.

**31** And God saw every thing that he had made, and, behold, it was very good. And the evening and the morning were the sixth day.

God created the Heaven, heaven (space), and Earth along with nature, animals, everything. All that in six days. There is a misconception that God created everything in seven days. Seventh day, God rested as said in Genesis chapter 2:1-3. Therefore, it is just literally six days, not millions of years. If the Bible tells us it is day and night in Genesis chapter one, it literally means 24 hours periods, not millions of years. This often misunderstood by people who are not being open to read the Scriptures to understand what the Holy Bible tells us. It is literally six days of Creation. From the Beginning when God said let there be light which means Spiritual Light, not the sun. In verse 8, that is when God created the sol, the sun that we depends on every day to see and warmth.

Verse two clearly states God touched water. There are water as evidence has shown in Space that NASA, European Space Agency, Jet Propulsion Laboratory or known as JPL where they have rovers on Mars and satellites flying in orbit or flyby planets in our Solar System. There are evidence of water on them especially Mars and possibility of Titan because it shows icy. Kepler Telescope has detected planets around other stars and they even have detected water on Earth-like planets.<sup>2</sup>

Also on Titan that there are icy water and possibility of oceans under the thick ice. The reason for all ice is because of the distance between the moon and the Sun itself is greater than between Earth and the Sun. Also the light from the Sun is dimmer when it reaches to the moon. Titan rotate around the planet Saturn.<sup>3</sup>

There are more. Even the Planet (which is in my opinion is a planet) Pluto has ice although it is not H<sub>2</sub>O which stands for 2 parts Hydrogen and 1 part Oxygen which equals to 1 molecule of water. Pluto is found to contain Methane Ice.<sup>4</sup>

This is what I believe in my theory. At least it is hypothetical beliefs: everything was made with Holy Water. Here is my logical explanation for why everything was made with water. Let's read the scripture. It is bolded to emphasize the topic here.

### **Genesis 1:2 –**

**2** And the earth was without form, and void; and darkness was upon the face of the deep. And **the Spirit of God moved upon the face of the waters.**

---

<sup>2</sup> **NASA Confirms Evidence That Liquid Water Flows on Today's Mars** by NASA, 20 September 2015, <https://www.nasa.gov/press-release/nasa-confirms-evidence-that-liquid-water-flows-on-today-s-mars> Retrieved 24 June 2018

<sup>3</sup> **Saturn's moon Titan has a very salty ocean** by NASA [https://science.nasa.gov/science-news/science-at-nasa/2014/02jul\\_saltyocean](https://science.nasa.gov/science-news/science-at-nasa/2014/02jul_saltyocean) Retrieved 22 June 2018

<sup>4</sup> **Solving the Mystery of Pluto's Giant Blades of Ice** by NASA, September 26, 2017, <https://www.nasa.gov/feature/ames/solving-the-mystery-of-pluto-s-giant-blades-of-ice>, retrieved 26 June 2018

Now, that verse clearly stated *before* the creation of Light which is Heaven itself. Space—or the Universe was full of darkness, void, and of course, water. Everything was water. Let the evidence showed that there is water on Earth, on Mars, Titan, and maybe more planets in our Solar System and the discoveries of planets since 1995 through Kepler Telescope and other satellites and telescopes that showed the possibility of water on such exo-planets. The evidence is shown for a Saturn-sized exo-planet WASP-39b that it has is water.<sup>5</sup> Another evidence is found on another exo-planet, a Neptune-sized HAT-P-11b around Star HAT-P-11.<sup>6</sup>

The evidence has shown that clearly. It is not easy with the fact that the naked eye can not see water. Water is everywhere. Even there are rivers of sea in the sky. Water underground.

**Genesis 6:4 – 20, selected verses.**

**4** For yet seven days, and I will cause it to **rain upon the earth forty days and forty nights**; and every living substance that I have made will I destroy from off the face of the earth.

**6** And Noah was six hundred years old when the flood of waters was upon the earth.

**10** And it came to pass after seven days, that **the waters of the flood were upon the earth.**

**11** In the six hundredth year of Noah's life, in the second month, the seventeenth day of the month, the same day were **all the fountains of**

<sup>6</sup> **NASA Telescopes Find Clear Skies and Water Vapor on Exoplanet** by NASA, 24 September 2014, <https://www.nasa.gov/press/2014/september/nasa-telescopes-find-clear-skies-and-water-vapor-on-exoplanet> retrieved on 27 June 2018.

**the great deep broken up, and the windows of heaven were opened.**

**12 And the rain was upon the earth forty days and forty nights.**

**17** And the flood was forty days upon the earth; and the waters increased, and bare up the ark, and it was lift up above the earth.

**18 And the waters prevailed, and were increased greatly upon the earth; and the ark went upon the face of the waters.**

**19** And the waters prevailed exceedingly upon the earth; and all the high hills, that were under the whole heaven, were covered.

**20** Fifteen cubits upward did the waters prevail; and the mountains were covered.

As you can see where all the water came from. Deep of the earth and from heaven. Lowercase h, not capitalized H. This means the sky. There are Rivers of water in the sky today. Scientists have proven there are Rivers in the Sky.<sup>7</sup> If they said there are Rivers, then they are onto something Biblically-corrected Science. They are called *atmospheric rivers*. Of course, they are vaporized water from oceans and lake. Like the Pineapple Express River that the water are vaporized from Hawaii region and dump as rain over the Continental United States starting with states like California and Oregon and east-bound. Another is the Tug Hill Express River which is the water vapor from Lake Ontario and dump Lake-effect snow in Upstate New York including Tug Hill,

---

<sup>7</sup> **Giant 'Rivers in The Sky' Could Cause Vast, Extinction-Level Floods. Atmospheric rivers have claimed their first victims.** By BEC Crew, 15 December 2016, <https://www.sciencealert.com/giant-rivers-in-the-sky-could-cause-deadly-extinction-level-floods>. Retrieved 27 June 2018

Watertown, and Syracuse, New York regions. Lake Erie dumps snow onto Buffalo and Erie, Pennsylvania. However, there are rivers that are much bigger and just floats in the air unseen.

In Biblical times, in Pre-Floods era, the waters in the sky has been held up since the Creation and therefore, it remained in the skies and other waters in the depth of the earth. Because of the death of mass extinction of the shells off the Coast of San Francisco, California due to the floodings<sup>8</sup>, it proved the global flooding during Noah's times.

Landmass was much larger than it is today. If one looks at the earth today, if you want to read a map includes continental shelves around the world, you may notice how land appeared. This should, theoretically, to the fact it was part of land but it was destroyed by the Great Flood of Genesis chapter 7 that God ordered to destroy the wicked mankind of Pre-Flood Era. The shape of South America and Africa are quite mated together as if they were together as part of what they call, "**Pangaea**." It was possible they were Pangaea however, my theory I disagree with that assessment scientists had theory of. Since mankind was only around 6,000 years, the divisions of lands due to earthquakes like it explained in Genesis Chapter 7, verse 11. Water was gushing out of the deep. That is, land. Sure, it cracked and opened up. Like the caldrons in recent times discovered in Siberia when permafrost melted and water was flushed out of bowl-like caverns in tundra region.

Sure, Africa and South America were shaped like that because the cracks of the deep cracked and split the land. Not further apart, the land collapsed. Perhaps it was a river? A super-river many times more than Amazon or Mississippi.

The Continental Shelves are "". To see what Continental Shelves are, please look at this website: <https://www.nationalgeographic.org/encyclopedia/continental-shelf/> to see what they are. A better website showing more detailed about the shelf is found at

---

<sup>8</sup> Ibid

[https://en.wikipedia.org/wiki/Continental\\_shelf](https://en.wikipedia.org/wiki/Continental_shelf). Therefore, because of the Biblical floods, the water did not completely decline back to the original shorelines of Pre-Flood Era. Here is the evidence that the Garden of Eden is more than likely buried under the Persian Gulf where the shorelines of Iran and Iraq and Kuwait are settled after the flood. But one must remember the Great Flood have totally changes shorelines, lands, and new rivers and because of temperatures changes that caused the four seasons. This is highly complex. You must remember that new settlers named new locations after their old homeland. For instance, likely the Puritans may have named this river in Connecticut, Thames River after the famed river in England-London. Syracuse, NY was named after a Biblical city, Siracusa where the Apostle Paul crashed into one night en route to Roma, Italy. Rome, New York is also named for the famed headquarter of the Roman Empire-Roma, Italia. The basic concept of what I said is correct. The exact pinpoint is not found. Not only that, God destroyed the Garden after the sin.

Likely it was Noah who recalled the Biblical rivers that ran through the Garden long before the Flood. So, likely Noah wanted people to recall roughly where the rivers were but also in honor of. Like we have Washington, D.C. in honor of George Washington who was hero and a forefather of United States. Same manner for Elon Musk named his electric automobile company after Nickolas Tesla, a genius in electricity currency flow and pioneer in electricity power source.

Many school buildings are named after donors, famous graduates, and celebrities. You get the idea. Therefore, Noah likely named rivers after the original rivers. If you have recalled bathing in the bathtub as a young child, you recalled your mother flushed the tub and you watch how water drained out and see there were "rivers" of water left on the bottom of the tub runs down. Each time, it was different flow. Not one is alike. Therefore, the concept was the same. Even the rivers in the Middle East are flowing not the same as it was during Jesus Christ's era and Post-Great Flood era. There is an evidence that was found in National Geographic magazine article about how the four person statues that were sitting in original position in Egypt. Because of the river near those statues are now submerged. The archeologists and Conservators had to relocate

those enormous statues thousands of feet away and rebuilt them on higher ground away from the river. River bends do change through times.

Even storms ever since the Great Flood as God ordered weather patterns to resume as said in...

**Genesis 8:22 –**

While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease.

That was immediately after the flood. More than Likely the Garden of Eden was in Middle East. It is not possible but probable.

Likely location was at the Persian Gulf.

Because of the land mass was greater in pre-flood and water were pretty much buried and or frozen to reduce the amount of water. In Pre-Great Flood, there were no weather as we know today. Therefore, there were no glaciers and no formation of icebergs, cauldrons, and other related to frost and freezing temperatures in Polar Regions. Water were pretty much in Astrosphere Rivers, buried in grounds, and deeper in the earth crust. Likely under seafloor as well. And likely from outer space if you recalled that space matter is water.

Underground if there were water and it was drained out, that would cause catastrophe sinkholes and cauldrons. Also erode lands into mudslides.

With understanding of modern catastrophe disasters such as The Great San Francisco Earthquakes (1901 and 1989), The Japanese Quake of 2006 the mudslides of California, the Great Boxing Day Tsunami of 2004 and the Minoan and Pompeii Eruptions as well as many others ever since. They all showed how quickly disaster occurred and for some, already underseas.

Even hurricanes that frequented rammed the coastlines of the United States that roared from the western coastline of Africa. You may noticed that the shorelines in the Gulf of Mexico and even between Florida and North Carolina. They have massive curves. It is likely due to the fact the hurricanes rammed hundreds of times if not, thousands of times eroded the shorelines especially sandy beaches. The evidence clearly can show that New Orleans would have been long since undersea if they did not have dikes. The same manner with the Netherlands/Holland that their land are below sea-level but for Netherlands, no hurricanes. That sea area was called Doggerland in Northern Europe.<sup>9</sup>

The Continental Shelf in the Gulf and the sea area between United Kingdom and the Nordic countries and the mainland Europe were once land. They have discovered civilizations recently in the sea in Northern Europe from the Viking Era and pre-Viking Era which means Pre-Flood Era which was not too long ago. Between 1000 years ago and Biblical Old Testament era. Experts who researched said it was 6500 years ago. They are getting close to the date of the Flood. Pretty close. They did not say millions of years ago. They have discovered animals buried on Doggerland. And Civilizations.

Therefore, landmass globally were quite vast during Pre-Flood Era. And likely higher too because of the flood, it created mountains globally both on land and undersea. Doggerland is best evidence presented that the Pre-Flood is true.

In fact, many accounts talk of the global flooding globally from different ethnic tribes, and stories and “folklores” that were taken from legends. Legends are based on true facts. How? It was just merely three short generations after Noah that the people were already talking and planning to build the Tower of Baal. Likely a pyramid. God came down and saw what they were doing and confused their language and they had to find

---

<sup>9</sup> **Britain's Atlantis' found at bottom of North sea - a huge undersea world swallowed by the sea in 6500BC.** By Rob Waugh, DailyMail.com, Published: 19:32 Edt, 2 July 2012 | Updated: 06:49 Edt, 3 July 2012, <http://www.dailymail.co.uk/sciencetech/article-2167731/Britains-Atlantis-North-sea--huge-undersea-kingdom-swamped-tsunami-5-500-years-ago.html>. Retrieved 29 June 2018

people with similar language and then join together to find new lands to settle down away from other people with different languages. See the scriptures especially bolded to see what was happening.

**Genesis 10:1-12, 32—**

**1** Now these are the generations of the sons of Noah, Shem, Ham, and Japheth: and unto them were sons born after the flood.

**2** The sons of Japheth; Gomer, and Magog, and Madai, and Javan, and Tubal, and Meshech, and Tiras.

**3** And the sons of Gomer; Ashkenaz, and Riphath, and Togarmah.

**4** And the sons of Javan; Elishah, and Tarshish, Kittim, and Dodanim.

**5** By these were the isles of the Gentiles divided in their lands; every one after his tongue, after their families, in their nations.

**6** And the **sons of Ham; Cush**, and Mizraim, and Phut, and Canaan.

**7** And the sons of Cush; Seba, and Havilah, and Sabtah, and Raamah, and Sabtechah: and the sons of Raamah; Sheba, and Dedan.

**8** And **Cush begat Nimrod: he began to be a mighty one in the earth.**

**9** **He was a mighty hunter before the Lord: wherefore it is said, Even as Nimrod the mighty hunter before the Lord.**

**10** **And the beginning of his kingdom was Babel**, and Erech, and Accad, and Calneh, in the land of Shinar.

**11** Out of that land went forth Asshur, and builded Nineveh, and the city Rehoboth, and Calah,

**12** And Resen between Nineveh and Calah: the same is a great city.

**32** These are the **families of the sons of Noah**, after their generations, in their nations: and by these were the nations divided in the earth after the flood.

**Genesis 11:1-9 –**

**11** And the **whole earth was of one language, and of one speech.**

**2** And it came to pass, as they journeyed from the east, that they found a plain in the land of Shinar; and they dwelt there.

**3** And they said one to another, **Go to, let us make brick, and burn them thoroughly. And they had brick for stone, and slime had they for mortar.**

**4** And they said, **Go to, let us build us a city and a tower, whose top may reach unto heaven; and let us make us a name, lest we be scattered abroad upon the face of the whole earth.**

**5** And the Lord came down to see the city and the tower, which the children of men builded.

**6** And the Lord said, **Behold, the people is one, and they have all one language; and this they begin to do: and now nothing will be restrained from them, which they have imagined to do.**

**7** **Go to, let us go down, and there confound their language, that they may not understand one another's speech.**

**8** So the Lord scattered them abroad from thence upon the face of all the earth: and they left off to build the city.

**9** Therefore is the name of it called Babel; because the Lord did there confound the language of all the earth: and from thence did the Lord scatter them abroad upon the face of all the earth.

Because of just three simple generation. They may have already by the dozens of children. Recall people lived to be 120 years as God commanded. And no birth control, no abortions, no morning after pills. Therefore, pregnancy were paramount at the time. Likely say, 5 children in just 50 months. 1 child for every ten months depending on the pregnancy cycle and the post-birth of the child that it takes a month for the stretchmarks to reduce to normal. People lived longer, healthier, and therefore, likely birth rate for females approximately thirteen years to fifty years of age. That is a thirty-seven years of pregnancy opportunities. This can mean about forty children per couple. The Bible only show accounts of males' names however, they had female children. But with that number, this means the entire family of Noah worked on the Tower of Babel. Anywhere from at least a dozen to a few hundreds of people but not a whole lot.

Since they remembered the stories of the flood, since they were confused with language, they understood their own language what things means. They had to re-learn languages. From Adam to Cush and Nimrod generation, they spoke very intelligently. However, with confusion of language, this is where secular scientists would say that the people were "caveman" language. Not true.

They spoke new languages. They knew words. They inherited the story of the Great Flood. Many people found each other who can speak own languages joined as a tribe and relocated to where they decided to go. They went there and settled and told stories about the Great Flood.

Now, where the dinosaurs fit in? The Bible did not say much but there are dinosaurs still even alive today.

# CHAPTER TWO: THE CREATION OF THE DINOSAURS

There were dinosaurs in the Bible after all. Even from the beginning. If the people of many languages spoke of the flood, they also spoke of the dinosaurs. And were still living with them even after the Great Flood!

## **Genesis 1: 20-28—**

**20** And God said, **Let the waters bring forth abundantly the moving creature that hath life, and fowl that may fly above the earth in the open firmament of heaven.**

**21** And **God created great whales, and every living creature that moveth, which the waters brought forth abundantly, after their**

**kind, and every winged fowl after his kind:** and God saw that it was good.

**22** And God blessed them, saying, **Be fruitful, and multiply, and fill the waters in the seas, and let fowl multiply in the earth.**

**23** And the evening and the morning were the fifth day.

**24** And God said, **Let the earth bring forth the living creature after his kind, cattle, and creeping thing, and beast of the earth after his kind:** and it was so.

**25** And **God made the beast of the earth after his kind**, and cattle after their kind, and every thing that creepeth upon the earth after his kind: and God saw that it was good.

**26** And God said, **Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth.**

**27** So God created man in his own image, in the image of God created he him; male and female created he them.

**28** And God blessed them, and God said unto them, **Be fruitful, and multiply, and replenish the earth, and subdue it: and have dominion over the fish of the sea, and over the fowl of the air, and over every living thing that moveth upon the earth.**

As you can see, God created sea life first and birds. Then created the animals. Scientists would say that is because of single cell creationism and turned to sea animals such as fish, then it grew into animals that crawled out of the sea onto land then become monkeys and then man. Wrong.

The verses clearly stated God created everything that day, Day 5. Just the day before God created man! *ONE* day! The next day, God created the animals on land. So, this totally debunked that dinosaurs are birds or came from birds. Absolutely not true. You see, birds came first before dinosaurs, not the other way around. Some dinosaurs were bird-like like Kangaroo are basically a rodent- a rat. Dinosaurs are quite different kinds. Lizards-like, bird-like, rodent-like, giraffe-like, etc. Dinosaurs were created on the same day as cattle, deer, sloths, rodents, bears, etc. and of course, mankind.

### **///~~ONLY THE SERPENT WAS EVOLUTIONIZED~~///**

Only one kind of animal God changed and that was a Serpent, not any other animals. Just one: the Serpent that Satan entered and spoke to the woman-Adam's Rib or wife.

Let's read the scripture:

#### **Genesis 3:1-15 –**

**3** Now the serpent was more subtil than any beast of the field which the Lord God had made. And he said unto the woman, Yea, hath God said, **Ye shall not eat of every tree of the garden?**

**2** And the woman said unto the serpent, We may eat of the fruit of the trees of the garden:

**3** But of the fruit of the tree which is in the midst of the garden, God hath said, **Ye shall not eat of it, neither shall ye touch it, lest ye die.**

**4** And the serpent said unto the woman, Ye shall not surely die:

**5** For God doth know that in the day ye eat thereof, then your eyes shall be opened, and ye shall be as gods, knowing good and evil.

**6** And when the woman saw that the tree was good for food, and that it was pleasant to the eyes, and a tree to be desired to make one wise,

she took of the fruit thereof, and did eat, and gave also unto her husband with her; and he did eat.

**7** And the eyes of them both were opened, and they knew that they were naked; and they sewed fig leaves together, and made themselves aprons.

**8** And they heard the voice of the Lord God walking in the garden in the cool of the day: and Adam and his wife hid themselves from the presence of the Lord God amongst the trees of the garden.

**9** And the Lord God called unto Adam, and said unto him, **Where art thou?**

**10** And he said, I heard thy voice in the garden, and I was afraid, because I was naked; and I hid myself.

**11** And he said, **Who told thee that thou wast naked? Hast thou eaten of the tree, whereof I commanded thee that thou shouldest not eat?**

**12** And the man said, The woman whom thou gavest to be with me, she gave me of the tree, and I did eat.

**13** And the Lord God said unto the woman, **What is this that thou hast done?** And the woman said, The serpent beguiled me, and I did eat.

**14** And the Lord God said unto the serpent, **Because thou hast done this, thou art cursed above all cattle, and above every beast of the field; upon thy belly shalt thou go, and dust shalt thou eat all the days of thy life:**

**15** **And I will put enmity between thee and the woman, and between thy seed and her seed; it shall bruise thy head, and thou shalt bruise his heel.**

Clearly verse 15 explained the only evolutionary of the animal during First Generation of Mankind-Adam and Eve. The serpent.

Likely this serpent is based on this creature they discovered not too long ago: ***Tetrapodophis amplexus***.<sup>10</sup> This is the likely creature they discovered similar to the walking ***Serpent*** of the Bible. Since this snake that walked was a total different species that are extinct because of God cursed it but clearly snakes including the Serpents are still alive today. Likely large ***Carnivorous Reptile Snake*** in class: ***Reptilia***- suborder: ***Serpentes***.

However, snakes are still around because the animals were called to Noah's Ark. God explained to Noah His plan for animals to be saved. See bold words to understand. Every living creature including the snakes... and dinosaurs.

#### **Genesis 6:19 and 20 –**

**19 And of every living thing of all flesh, two of every sort shalt thou bring into the ark, to keep them alive with thee; they shall be male and female.**

**20 Of fowls after their kind, and of cattle after their kind, of every creeping thing of the earth after his kind, two of every sort shall come unto thee, to keep them alive.**

Noah obeyed and did his job according to Genesis 7:5. They all were in. ***Cattle, Deer, Snakes, Frogs, Goats, Bats, Cardinals, Dogs, Cats, and Tigers***, just to name a few. Every single one came upon the Ark. There are, unfortunately between the Creation

---

<sup>10</sup> **Four-legged fossil snake is a world first. 'Hugging' creature from Brazil shakes up picture of snake evolution.** By Anastasia Christakou, ***Nature, International Weekly Journal of Science***. 23 July 2015, Sub-reference: Martill, D. M., Tischlinger, H. & Longrich, N. R. *Science* 349, 416–419 (2015). <https://www.nature.com/news/four-legged-fossil-snake-is-a-world-first-1.18050#/b1>. Retrieved 30 June 2018

and Noah's Ark that some animals were extinct because of survivalism and for sacrifices. After the sin, mankind starting with Adam and his wife, Eve had to listen to God and God did the first act of sacrifices.

**Genesis 3:21—**

**21** Unto Adam also and to his wife did the Lord God make **coats of skins, and clothed them.**

But this is the first ever animal sacrifice that the Lord did and as means to instruct Adam and Eve that it is required to do so that pleases God.

**Genesis 4:4-5—**

**4** And Abel, he also brought of the firstlings of his flock and of the fat thereof. **And the Lord had respect unto Abel and to his offering:**

**5** But unto **Cain and to his offering he had not respect.** And Cain was very wroth, and his countenance fell.

So, you can see God accepted animal offerings to God. It was all started with God showing Adam and Eve.

Because this was about 150 years after Adam was first created. Animals were already multiplied as God commanded them as said in Genesis 1:22 and 28. Depending on which species you are talking about, they could be anywhere between dozens and thousands of their own kind. Birds, fishes, whales, turtle, tigers, bears, and many more. They were multiplying fast. Dinosaurs, Dodos, the four-legged serpents, and unicorns were all also multiplying according to the Lord.

Because of multiplication of pro-creationism animals continued, the spread all over the world. The Garden was not just only the location those animals were living but globally. Some other species were already relocating by air if they were fowls of the air or by land if they are crawling or walking or stride on land.

### **///DOGGERLAND///**

As you recalled the landmass shaped in pre-flood era, water surface were much lower, land was higher, flatter, and further out thanks to the Continental Shelf everywhere. Remember, there were Doggerland, the landmass in the Gulf of Mexico, the land of the Bahamas connecting with Florida and the land of the Caribbean connecting with both. The land connecting between Australia and New Zealand together as one land-the Zealandia landmass.<sup>11</sup> Likely there were much bigger land connecting Zealandia and Australiana which combined Australia, Zealandia, Indonesia, the Philippines, and among other islands connecting to Vietnam and China and Taiwan.

Let me ask, how did the Kangaroos reached Australia? How did the extinct animals get buried with Doggerland?

How did those massive Dinosaurs, Sloths, Mammoth and Giant Rodents lived in the Americas?

Evident showed very clearly the discoveries of such animals matched to species discovered in Asia. Woolly Mammoths were discovered frozen in both continents. Asia had theirs<sup>12</sup> as Americas also had Mammoths.<sup>13</sup>

## //TIME BETWEEN CREATION WEEK AND THE FLOOD//

So, likely because of time between the Creation and because of the Great Flood, the time period between those two were merely 1656 AM (Annual of the World), known as 2348 B.C.-Before Christ. This website explained quite clearly how to measure time based on the Scripture.<sup>14</sup> Check out this feedback in [Answers in Genesis](#) website. Excellent resources.

So, it was just 1656 years after Adam was created. Not very long! But the population was large in just 1656 years. Both mankind and animals. So, likely Mankind has killed off animals. There are evidence that we are responsible for near extinction of **Buffaloes** in North America because of pretty much wild cowboys killed Buffaloes just to eat the delicacy of **Buffaloes** tongues to eat.<sup>15</sup>

The **Dodos** are extinct because of mankind wiped out the flightless bird on Mauritius. They were wiped out due to human relocation to the island and that disrupted the **Dodos** natural habitat but also third-party invasion caused by humans such as ship rats, other escaped animals and feral pets lived on the island and likely ate **Dodo** eggs. The wipe out has caused extinction of the **Dodos**. It was too late to preserve the birds.<sup>16</sup> Today, **Rhinos**<sup>17</sup>, **Lions**<sup>18</sup>, several variants of **Tigers**<sup>19</sup> and **Elephants**<sup>20</sup> are near

<sup>17</sup> **Poaching for rhino horn** By Save the Rhino, <https://www.savetherhino.org/rhino-info/threats/poaching-rhino-horn/>. Retrieved 30 June 2018.

extinction due to poachers only wanting to get tusks or beautiful coats of wild cats for black markets. Even the whole carcass for the purpose of taxidermy for their main hunter's desire to collect animals as trophies. They are on way to extinction faster than reproduction. Poaching Facts has excellent resources on how many get killed per annual.

Poachers has been one of many factors of why Dinosaurs have extinct. For instance, **Triceratops** was a **Rhino**-like with the horns but the rest of the body was totally different than a **Rhino** had such as an enlarged tail that **Triceratops** had.

### ///**DINOSAURS WALKED WITH MAN**/// /

What more interesting is this? This means Dinosaurs roamed the Earth the same as mankind did as in Pre-Flood Era, during of the Flood in the Ark, and Post-Flood Era. As we understood during the Creation Week, God created Man after God created all kinds of Animals. Even created other subspecies of human-like creatures during this time period. That is because there is another theory that is not been tested. Christians believe there is Creationism. Everything was made. Scientists believe in Evolutionism. They both have different trees as we know of. For instance, for those believing in Evolutionism, their point of view saying is that "Humans were from **Gorilla**-type which came from **Chimpanzees** which came from **Monkeys**, etc., etc." Creationism sharply separate each category of species. However, from my understanding by observation, because I do not have a degree in zoology, paleontology, or whatever degrees in specific study of animals. But from reading the scriptures and from reading online,

<sup>20</sup> (Previous Page) **ibid.**

books. There are many debunks of species that they claimed to discover. Perhaps to create new lies or rather to gather their Narcissism regarding of their discovery with pride which are their downfalls.

For instance, some would discover just a piece of skull and claim that is a whole new specie to classify without the whole skeleton to mate with to get proper classification. Besides that, only Mankind has one possession that no other beasts have: soul. No apes, monkeys, whatever those were, they lacked souls (Biddle, Bisbee, and Bergman 2016)<sup>21</sup> You will find that often they find fossils of some animal or humans, they lack a complete set of skeletons.

My beliefs was there were quite more species than previous thought. Because of Humans were created in the beginning as even Jesus said in Mark 10:6.

**Mark 10:6 –**

**But from the beginning of the creation God made them male and female.**

This clearly stated what God-the Father, the Word Himself who spoke that verse, and the Holy Ghost created mankind in His Image. Now, all of those species of **Monkeys, Gibbons, Apes,** and **Gorillas** are all created along with many other ape-like they discovered. In fact many species they discovered even were debunked by their own peers-the Evolutionists!<sup>22</sup> Whatever the case, some ape/gorillas/chimpanzee-like creatures were in existence at the time-at the same time.

## ///**LIFE EXPECTANCY**///

In fact, even humans at the time were rather physically larger than of us today. Oxygen were rather abundant during Biblical times especially in Pre-Flood Era. Because of the flooding for about a year and declining during those first few years after the Great Flood, nature had to grow again. Seeds were hidden in the ground. Since the landmass were reduced, so were trees, grasses, and other oxygen producing plants and nature. There were also much fewer carbon-dioxide producing creatures-animals and humans. Nature on both sides were greatly reduced and therefore, oxygen were deprived and so were carbon-dioxide. And because God ordered humans to live shorter from about 900 years to 120 years.

### **Genesis 6:3 –**

And the Lord said, **My spirit shall not always strive with man, for that he also is flesh: yet his days shall be an hundred and twenty years.**

And that is not the only time God reduced mankind life expectancy. There is a verse that God reduced *further* to 70 years or 80 years of age if we are faithful and staying healthy. Because of the sins of all of us, you and I. And because God would not bless you even if you do honor God, your life is shorter now. Most Christians overlook this verse. Even for those who are not saved either:

### **Psalms 90:10 –**

The days of our years are threescore years and ten; and if by reason of strength they be fourscore years, yet is their strength labour and sorrow; for it is soon cut off, and we fly away.

Because of our labor that we have to work six days a week, and focus on God on Sundays which is sorrow. Labor and sorrow. Sorrow also means depressive life. If you read the verse carefully. Many of us have Depression. That is another topic another book to write about.

Likely animals' lives were shorter too. Likely many were killed by humans and because God allowed animals to hunt for other animals for their food consumption. Therefore, their lives are shorter. There are many reasons.

### **///REASONS FOR EXTINCTIONS///**

There are many factors why many dinosaurs and Biblical animals went extinct:

**First of all**, the Sins of Adam and Eve that caused the ripple effect globally and universally. Yes, planets, stars, moons, space, galaxies, etc.

#### **Romans 8:22-24 –**

**22** For we know that the **whole creation groaneth and travaileth in pain together until now.**

**23** And **not only they, but ourselves also, which have the firstfruits of the Spirit, even we ourselves groan within ourselves**, waiting for the adoption, to wit, the redemption of our body.

**24** For we are saved by hope: but hope that is seen is not hope: for what a man seeth, why doth he yet hope for?

When did it started? At the Garden.

#### **Genesis 3:23 and 24 –**

<sup>23</sup> Therefore the Lord God sent him forth from the garden of Eden, to till the ground from whence he was taken.

<sup>24</sup> So he drove out the man; and he placed at the east of the garden of Eden Cherubims, and a flaming sword which turned every way, to keep the way of the tree of life.

Likely the Garden was there till everything was withered away because of Man sinned against God and was casted out therefore, the Cherubims guarded against Man to prevent Man entering the Garden till all were withered away. It is gone. Likely under the Persian Gulf.

**Second reason** was that humans hunted animals for survivalism and for sacrifices. Some tribes even had mass hunting-that is drove the herd of certain species to jump cliffs to their death to save their weapons and do their business cut up carcass for whatever they need.

- **Third reason:** Because of mass-hunting and lack of breeding programs like we do today with **Cattle** and **Sheeps**, and **Lambs** for food and hide, they did not breed and drove many species to extinctions. It occurred both Pre-and Post-Great Flood.<sup>23</sup> In fact, the website HunterCourse.com listed ten species went extinct because human careless:
- **Woolly Mammoths.** Extinct during Biblical Times.
- **Caspian Tigers.** Extinct in c. 1954 due to Soviet ordered military to wipe out to allow its collective farming near the Caspian Sea.
- **Thylacines** (Tasmanian Tigers) Last one died in a zoo in 1938.

---

<sup>23</sup> **10 Animals Hunted (or Nearly Hunted) To Extinction.** By Alex Czartoryski, Hunter Course, September 28, 2011, <https://www.huntercourse.com/blog/2011/08/10-animals-hunted-or-nearly-hunted-to-extinction/>. Retrieved 2 July 2018.

- **Dodos.** (Indirect. Humans were third party responsible for Dodo extinction.)
- **Passenger Pigeons.** Last one went extinct in 1914. Once quite a lot of Passenger Pigeons in fact, accounts claimed their flocks were in the billions. But the poor and slaves as well as meat hunters hunted for them for meat and likely hunters were allowed to hunt down this certain type of Pigeons. All wiped out.
- **Polar Bears.** (Near Extinct)
- **Muskox.** (Near Extinct)
- **American Crocodiles.** (Near Extinct although they are recovering).
- **Flying Foxes.** (Near Extinct)
- **The Great White Shark.** (Near Extinct)
- **Great Auk.** Huge Penguins wiped out because of eggs and its skin were valuables for museums! Last one extinct in 1844.<sup>24</sup> (The rest of the list below are from same source as in references number 24).
- **Quagga.** A species of **Zebra** group. Extinct in 1883.
- **Falkland Island Wolf.** Extinct due to the wolf attacking on their livestock so breeders and farmers poisoned or hunted them to extinction. 1876.
- **Zanzibar leopard.** Wiped out in 1990s due to fear of claims that witches kept them for harming people. They had a campaign to exterminate them entirely. This is likely activity people exterminated the Dinosaurs.
- **Caribbean monk seal.** Extinct for meat and other unknown reasons. Declared extinct in 2008.
- **Carolina parakeet.** Pretty bird, pretty bird went extinct in 1903. Caused by humans because of its beauty-the feathers for women's hats.

---

<sup>24</sup> **13 animals hunted to extinction.** By: Bryan Nelson, Mother Nature Network, May 6, 2011, 12:45 p.m., <https://www.mnn.com/earth-matters/animals/photos/13-animals-hunted-to-extinction/great- auk#top-desktop>. Retrieved 2 July 2018.

- **Atlas bear.** Extinct by mostly game sport and Roman Empire capturing the bears for slaughter of the Christians and the Jewish people of the Era. Last one in 1870s.
- **Toolache wallaby.** Most beautiful of all species of Kangaroos. Its beauty were targeted for fur and therefore, they were hunted and extinct by 1930s.
- **Sea Mink.** Hunted to extinction for its beautiful fur coat.
- **Bubal hartebeest.** A Deer-like with just Ox-like horns on its head. Very common animal used for sacrifices and for Human needs. Last one died in Paris Zoo in 1923. This one is mentioned in the Holy Bible. More on this later.
- **Stellar's Sea Cow.** In 1768 it went extinct after 27 short years after discovery. Humans discovered it and game hunters and hunters hunted the Sea Cow for food and clothes.

So, likely Dinosaurs faced the same problems when Humans hunted for sport, and for Human consumption but also as revenge for a dinosaur killing people or population similar to what people did with the Stingrays after the Late Steve Irwin was killed by a Stingray in September 2006. In fact, for its sheer size, the skin would cover a few people and meat excellent for at least two days to eat with a large population of people. For horns such as **Triceratops** were prized for medicinal and art purposes.

Also for poaching which continue to this day.

**Fourth reason:** With the Great Flood that Noah endured through among with his family and selected pairs, they were able to survive. For all Dinosaurs, they were huge in size and they were not able to fit in the ark as God commanded Noah to build. Likely they were hatchlings because they hatched from eggs, perhaps a week old to a month old that were boarded the ark. Likely they were hatchlings. By the time the ark rested on Mount Ararat, likely they were already juveniles—roughly a year old.

Because of survivalism began as next phrase from being on sea -ick rough riding on Noah's Ark, they were land-sick when they came out and for some species had to struggle to find food sources after the Great Flood as green pastures were starting to

grow. Some may have passed away due to starvation. Nothing says in the Bible but because it takes years for trees to grow. A pine cone takes a full seven years to get a spout to grow out of the ground. Grass and nasty weeds in six months.

A huge dinosaur such as famous ***Tyrannosaurus-Rex*** needed as much as 500 pounds in one bite but can fill its stomach full of several hundred pounds of its victims. This means likely at least two or three victims at one time but that was enough for few days still feeling stuffed.

On the other hand ***Brontosaurus***, a Sauropod dinosaur which is a Herbivore opposing ***Tyrannosaurus-Rex***, a Carnivore Theropod. Brontosaurus ate plants and because of its sheer size, it ate about 880 pounds of plants and leaves. Even Job saw this likely species. It is described in the Holy Bible.

**Job 40:15-24 –**

**15** Behold now behemoth, which I made with thee; he eateth grass as an ox.

**16** Lo now, his strength is in his loins, and his force is in the navel of his belly.

**17** He moveth his tail like a cedar: the sinews of his stones are wrapped together.

**18** His bones are as strong pieces of brass; his bones are like bars of iron.

**19** He is the chief of the ways of God: he that made him can make his sword to approach unto him.

**20** Surely the mountains bring him forth food, where all the beasts of the field play.

**21** He lieth under the shady trees, in the covert of the reed, and fens.

**22** The shady trees cover him with their shadow; the willows of the brook compass him about.

**23** Behold, he drinketh up a river, and hasteth not: he trusteth that he can draw up Jordan into his mouth.

**24** He taketh it with his eyes: his nose pierceth through snares.

Job wrote explaining a dinosaur with its name during the Biblical times: Behemoth as said in verse 15. Clearly described as a *sauropod*. This classification clearly states that it is a long necked herbivore dinosaur such as ***Brontosaurus***, ***Supersaurus***, and ***Diplodocus***, just to name a few. They are practically what I call, “Walking logs” or “Walking Whips” as nicknames. They are long necked, small head that its skull is fused in the neck, and whip-like tail.

Verse 15 explained it is a herbivore eating grass like an ox. Clearly dinosaurs roamed during mankind and shared the fields with oxen! Verse 16, the strength in the loins, stomach-rear hinds. Those legs are big and strong. Their leg size and paws are like what you see Elephants have. However, they are massive like a thick tall pine tree would be.

Verse 17 states his tail like a cedar. A cedar is a certain type of pine tree. Lovely smell and excellent moth repellent for your clothes and beautiful wood for kitchen cabinets. Anyway, the tail like a cedar which sounds like a ***sauropod***. Perhaps the largest of all sauropod, much larger than well-known ***Brontosaurus***. Perhaps a ***Supersaurus***. Or bigger not yet discovered.

Actually, Job was referring ***Behemoth*** as an example explaining about God Himself! Job symbolized God because ***Behemoth*** would be excellent example describing God. Because Job knew what Behemoth was like, clearly proven Dinosaurs walked with man.

**Fifth Reason:** Because of the nature of Earth and Creation groaned, many of the animals faced mass or prevalent illnesses that killed massive number of species all at

once such as occurred in recent times such as with ***Short-Finned Pilot Whales*** beached in Australia.<sup>25</sup>

## //LEVIATHAN//SEADRAGONS//

Next chapter Job spoke about a sea creature called Leviathan. Likely a sea-dragon with long body and fire coming out of snouts as it described. Would that be similar to the Oarfish? Perhaps. They are known to grow to roughly 57 to 65 feet long.<sup>26</sup> But remember oxygen were abundant<sup>27</sup> and everything grew big.<sup>28</sup> Even large dragonflies were as tall as this author who is five feet two.<sup>29</sup>

### Job Chapter 40 –

41 Canst thou draw out leviathan with an hook? or his tongue with a cord which thou lettest down?

2 Canst thou put an hook into his nose? or bore his jaw through with a thorn?

<sup>29</sup> **Ibid.**

**3** Will he make many supplications unto thee? will he speak soft words unto thee?

**4** Will he make a covenant with thee? wilt thou take him for a servant for ever?

**5** Wilt thou play with him as with a bird? or wilt thou bind him for thy maidens?

**6** Shall the companions make a banquet of him? shall they part him among the merchants?

**7** Canst thou fill his skin with barbed irons? or his head with fish spears?

**8** Lay thine hand upon him, remember the battle, do no more.

**9** Behold, the hope of him is in vain: shall not one be cast down even at the sight of him?

**10** None is so fierce that dare stir him up: who then is able to stand before me?

**11** Who hath prevented me, that I should repay him? whatsoever is under the whole heaven is mine.

**12** I will not conceal his parts, nor his power, nor his comely proportion.

**13** Who can discover the face of his garment? or who can come to him with his double bridle?

**14** Who can open the doors of his face? his teeth are terrible round about.

**15** His scales are his pride, shut up together as with a close seal.

**16** One is so near to another, that no air can come between them.

**17** They are joined one to another, they stick together, that they cannot be sundered.

**18** By his neesings a light doth shine, and his eyes are like the eyelids of the morning.

**19** Out of his mouth go burning lamps, and sparks of fire leap out.

**20** Out of his nostrils goeth smoke, as out of a seething pot or caldron.

**21** His breath kindleth coals, and a flame goeth out of his mouth.

**22** In his neck remaineth strength, and sorrow is turned into joy before him.

**23** The flakes of his flesh are joined together: they are firm in themselves; they cannot be moved.

**24** His heart is as firm as a stone; yea, as hard as a piece of the nether millstone.

**25** When he raiseth up himself, the mighty are afraid: by reason of breakings they purify themselves.

**26** The sword of him that layeth at him cannot hold: the spear, the dart, nor the habergeon.

**27** He esteemeth iron as straw, and brass as rotten wood.

**28** The arrow cannot make him flee: slingstones are turned with him into stubble.

**29** Darts are counted as stubble: he laugheth at the shaking of a spear.

**30** Sharp stones are under him: he spreadeth sharp pointed things upon the mire.

**31** He maketh the deep to boil like a pot: he maketh the sea like a pot of ointment.

**32** He maketh a path to shine after him; one would think the deep to be hoary.

**33** Upon earth there is not his like, who is made without fear.

**34** He beholdeth all high things: he is a king over all the children of pride.

Noticed the verses that says smoke out of its nostrils and the flames out of the mouth? Dragons! Yes, Sea-Dragons. It is difficult to find a skeleton of most marine life. There are more Dinosaurs than marine life in comparison in their catalogs at their labs. You will find its less fossilized fishes than Historic animals that once walked or flew because of ground were soft, muddy, and were able to cast skeletons than fishes and historic marine life to be molded to.

Oarfish? The Body description is correct but the smoke and fire...not an Oarfish. Nice try. Let's turn to Sea-Dragons aka, Marine Dinosaurs. **Loch Ness Monster? Champ** of the Lake Champlain between New York State and Vermont, United States? **Ogopogo**, the creature of Okanagan Lake in British Columbia, Canada? Now, the sightings have been around quite a long time. Cryptid or not, only the Lord knows if they really exist.

People may truly have seen Cryptids that Cryptozoologists love to claim they are true. However, there are Dinosaurs still around. For most of the Cryptids that people saw in such large deep water lakes there are more possibility of what they saw: **Plesiosaur**. It is classified as a marine reptile. Its body was similar to a **Sauropod** similar to a **Brontosaurus** but it had four flaps to move itself through the water.

However, the description of the Sea-Dragons were not similar to a **Plesiosaur** but more resembled to an **Oarfish** of massive body shape. And the flames and smokes... an Exaggeration? No. If the folklore showed a prince or a knight he bravely walked and

slay the dragon himself. If those folklore were true, then the Bible was onto something true. There were actual ***Dragons***. So where the Dinosaurs and more. There are evidence they are still with us. Both as Reptiles and for some, birds and other animals that are related. Dinosaurs are still around.

## !!! CHAPTER THREE: THE EVIDENCE OF DINOSAURS STILL HERE!!!

Dinosaurs are still with us. Clearly they are! Look at more familiar Dinosaur-appearing beasts today. **Lizards, Turtles, Crocodiles, Alligators, Snakes, Flying Foxes, Bats,** and more. They are still in existence. Also **Komodo Dragons** which is the largest lizards today, the latest King of Lizards which **Tyrannosaurus-Rex** have died out. Yes, other Dinosaurs were around before they were wiped out in our historical past. You will find this historical facts quite interesting. It shows in historical order.

First as we know that the Creation Week God created explained Beasts as in Genesis Chapter 1:20-24. That was the first historical evidence God created them and co-exist with Humans as said in Genesis Chapter 1:25 on.

Job in the Holy Bible spoke of both **Behemoth** (likely a herbivore Sauropod akin to **Brontosaurus**) and the **Leviathan** (likely a Sea-Dragon-a **Pleasaur**-like or an **Oarfish**-like. Both in Job Chapter 40 and 41.

Let's bring this topic more modern perspective on humans interaction with the Dinosaurs.

### **///THE PALUXY DINOSAUR///**

There are numerous of articles and it is part of a natural museum in Texas regarding the footprints of both a Dinosaur and a Human. The Paluxy Dinosaur footprints showed that there was a footprint trail of a dinosaur and human footprints walked next to the dinosaur's footprints at the Paluxy River near Bluff Dale, Texas. The footprints are confirmed that both man and dinosaurs walked among in those region. It is more than just one but many footprints. The Paluxy River Footprints was discovered in 1938 by a paleontologist named Roland Bird.<sup>30</sup> Controversial or not, Human footprints were likely pressed in the soft ground before it became rock for a certain number of years. This is one proof.

### **//THE DRAGON//DINOSAURENGRAVINGS//**

There are a numerous of engraving by artists admiring or ordered by rulers and Kings to show the symbol of dinosaurs that they never had fossil digging at the time till late Nineteenth Century when paleontology was in its infancy.

This one engraving was in France that displayed a "Dragon" which was clearly a Sauropod which could be a **Brontosaurus** or an **Apotosaurus**, a very close cousin of **Brontosaurus**. It was very common in Europe displaying Dragons such as in during the Middle Ages and the Renaissance Era. While Michelangelo chipped Marble to make David and painting the Sistine Chapel walls, other artists sculptured Dragons as

<sup>30</sup> **Paluxy River Tracks in Texas Spotlight.** by Dr. Elizabeth Mitchell, Answers in Genesis, April 14, 2012, <https://answersingenesis.org/dinosaurs/footprints/paluxy-river-tracks-in-texas-spotlight/>. Retrieved 2 July 2018.

they were called at the time.<sup>31</sup> See this excellent article regarding photographs to compare between Dragons artists painted or sculptured and the modern Dinosaurs. Read this article online: [Meanwhile, While We're About It, More Dinosaur/Human Interacting In France?](#) All sources in this paragraph are from that article.

Dragons were well documented and written and even used in folklores like we do today with motion pictures with movies such as *Jurassic Park/World* series and TV documentaries from cable companies such as *Animal Kingdom, Discovery, Sci-Fi, History*, and *National Geographic* has displayed. Numerous of books, dinosaur species catalogs, and magazines referenced Dinosaurs and Dragons. Dragons are now more common with symbolic of Chinese culture, and people requested for tattoos of dragons.

If that is the case with historic records of dragons meaning dinosaurs, then dinosaurs survived.

There are reports of Triceratops attacked a castle in Europe. It was featured in a Christian book as I recalled about 25 years ago. I should have bought it but had no money. It was very resourceful to show history.

Famous people witnessed them including Marco Polo, Alexander the Great, Pliny the Elder, among many explorers, well-known people, authors, and researchers of their days have wrote down descriptions of Dinosaurs.

For instance Pliny the Elder said they are like a very giant snakes because dinosaurs were typically casted as walking snakes because of its long necks, long whipping tails or even showed signs of snake-like even they are **Carnivores** including ***Tyrannosaurus-Rex***.<sup>32</sup>

<sup>32</sup> **Marco Polo Describes a Dinosaur** By R.K. Bentley, 9 March 2012, [https://rkbentley.blogspot.com/2012/03/marco-polo-describes-dinosaur\\_09.html](https://rkbentley.blogspot.com/2012/03/marco-polo-describes-dinosaur_09.html). Retrieved 4 July 2018.

Marco Polo was famous author who explored with his father and uncle to Far East to do trading and Marco wrote his memoirs of his experience trading and what he has seen in his exploration. Including that, he wrote about a dragon- a dinosaur especially he clearly described a young ***Tyrannosaurus-Rex***. Here I quote from his book, [The Travels of Marco Polo the Venetian](#):<sup>33</sup>

*Leaving the city of Yacho, and travelling ten days in a westerly direction, you reach the province of Karazan, which is also the name of its chief city.... Here are seen huge serpents, ten paces in length, and ten spans in the girt of its body. At the fore part, near the head, they have two short legs, having three claws like those of a tiger, with eyes larger than a fourpenny loaf (pane da quattro denari) and very glaring. The jaws are wide enough to swallow a man, the teeth are large and sharp, and their whole appearance is so formidable, that neither man, nor any kind of animal, can approach them without terror.*

And further...

*By their motion in this way along the shore, and their vast weight, they make a deep depression, as if a heavy beam had been drawn along the sands. Those whose employment is to hunt them observe the track by which they are most frequently accustomed to go, and fix into the ground several pieces of wood armed with sharp iron spikes, which*

---

<sup>33</sup> [The Travels of Marco Polo the Venetian](#), By Marco Polo, Part 2, Chapter 40, P. 265, English translated, Edited by Thomas Wright, Esq., Published 1864,  
<https://books.google.com/books?id=HBUIAAAAQAAJ&pg=PA265&lpg=PA265&dq=Here+are+seen+huge+serpents,+ten+paces+in+length,+and+ten++spans+in+the+girt+of+the+body.&source=bl&ots=HQ-Q42Wr-R&sig=LVuTLfmApJt9t738Jxq9OdQPKJ8&hl=en&sa=X&ei=pDBaT6vxGPHisQL91NzQDQ#v=onepage&q&f=false>. Retrieved 04 July 2018.

*they cover with the sand in such a manner as not to be perceptible. When therefore the animals make their way towards the places they usually haunt, they are wounded by these instruments, and speedily killed.*

Noted that the beam that Marco Polo spoke of is similar translation to what Job spoke of the cedar. However, this dinosaur Marco was talking about was, once again, a **Bipedal Carnivore theropods**. Likely a **Tyrannosaurus-Rex** or related somewhere in the subfamily, **Tyrannosaurinae**.

Here is another book published in 1948 by the same author, Marco Polo. More detailed explanation:

*"Leaving the city of Yachi, and traveling ten days in a westerly direction, you reach the province of Karazan, which is also the name of the chief city....Here are seen huge serpents, ten paces in length (about 30 feet), and ten spans (about 8 feet) girt of the body. At the fore part, near the head, they have two short legs, having three claws like those of a tiger, with eyes larger than a forepenny loaf (pane da quattro denari) and very glaring."*

*The jaws are wide enough to swallow a man, the teeth are large and sharp, and their whole appearance is so formidable, that neither man, nor any kind of animal can approach them without terror. Others are met with of a smaller size, being eight, six, or 5 paces long; and the following method is used for taking them. In the day-time, by reason of great heat, they lurk in caverns, from whence, at night, they issue to seek their food, and whatever beast they meet with and can lay hold of, whether tiger, wolf, or any other, they devour;*

*"After which they drag themselves towards some lake, spring of water, or river, in order to drink. By their motion in this way along the shore, and their vast weight, they make a deep impression, as if a heavy beam*

*had been drawn along the sands. Those whose employment is to hunt them observe the track by which they are most frequently accustomed to go, and fix into the ground several pieces of wood, armed with sharp iron spikes, which they cover with sand in such a manner as not to be perceptible.*

*When therefore the animals make their way towards the places they usually haunt, they are wounded by these instruments, and speedily killed. The crows, as soon as they perceive them to be dead, set up to scream; and this serves as a signal to the hunters, who advance the spot, and proceed to separate the skin from the flesh, taking care immediately to secure the gall, which is most highly esteemed in medicine.*

*In cases of the bite of a mad dog, a penny weight of it, dissolved in wine, is administered. It is also useful in accelerating parturition, when the labor pains of women have come on. A small quantity of it being applied to carbuncles, pustules, or other eruptions on the body, they are presently dispersed; and it is efficacious in many other complaints.*

*The flesh also of the animal is sold at a dear rate, being thought to have a higher flavor than other kinds of meat, and by all persons it is esteemed a delicacy." (The Travels of Marco Polo, © 1948, Book 2, Chapter XL, pg. 185-186)<sup>34</sup>*

Perhaps Marco Polo saw was a ***Yutyranus***, a subspecies of ***Tyrannosaurus Rex*** that is found in China It was being hunted and sold as expensive meat for people to eat! You see, it was Man was killing off the Dinosaurs, no other way around.<sup>35</sup> Now we are

---

<sup>34</sup> **The Travels of Marco Polo and the Dinosaurs.** By Forbidden-History: Dinosaurs and the Bible. <http://www.forbidden-history.com/marco-polo.html>. Retrieved 4 July 2018.

<sup>35</sup> **Ibid.**

doing that with Elephants, Rhinos, and others today. Same history repeated. Perhaps people thought those dinosaurs were tasteful than the modern day quite a distant cousins, the chickens and turkeys.

So, this proves that Dinosaurs lived among us! There are many reports of sighting.

There were cowboys in the American West, literally “Wild West” as it was called because of un-civilized regions in the plains and the mountains and the coastal lands in America West that there were reports of flying dinosaurs called Pterosaurs roamed the skies that the Native Americans called them, “**Thunderbirds**.” In fact, they were likely saw such **Thunderbirds** and even **Phoenix** and used them as their folklore stories. Unfortunately, Native Americans were oralists, not writers. Records are harder to prove the same as it was in Europe, Asia, and Africa with Biblical Animals that they did not write much. Art was the only means for stories.

### **///CAVE AND ANCIENT ART//**

Those art were preserved well since Biblical Times. More likely after the Great Flood because the Great Flood washed away art, materials, and fabrics by destruction at the bottom of the sea. Dirt and sand covered them, pressures from the sea, and rain and thunderstorms have washed art off the cave walls, stone walls, and God knows what else they had art on. However, for some other art that lasted beyond the Great Flood, it was little known because the entire earth was covered with the Flood. Usually stones shaped by Man may be the only material left. Sculpture are not known before the Flood. Carbon Dating System is not a function scientific tool because they measure wrong.

This is a proven fact that this author of this book spoke with a Deaf woman majoring in Geology in College who is a genius already having earned a couple of other college degrees. She is a Christian and said she was assigned to create a rock using soft tissues and then carbon dating to show it is a new rock which should be a few minutes old. However, Carbon Dating showed it was millions of years old!

Therefore, carbon dating is debunked. She debunked it. Therefore, carbon dating should not be recognized.

Now, back to art. Art is one way known to show during Old Testament because writing was already the norm and had paper available during Old Testament. Likely closer to Christ walked on Earth among us in First Century.

Cave painting showed several animals but they refuse to show dinosaurs because the Atheists and scientists wanted to brainwash us to say only time Dinosaurs lived was pre-human era. It has to do with Darwinism and Evolutionism that those stubborn group of people who does not know Jesus Christ at all.

There were familiar animals on cave walls but actually the Liberal media does not want to show there are dinosaurs on walls. And even ***cryptids*** that are possible surviving beasts of the Bible, and extinct beasts of more recent times that are found on walls of the caves and castles and more. Remember, this book is based on educated guess and opinion of mine, and by faith. Cryptozoology is commonly found with Young Earth Creationism because of their beliefs that ***Dinosaurs*** are still around and some of the creatures such as ***Unicorns*** as found in the Holy Bible 9 times with that word but 10 times it talked about it. This would be found in King James Holy Bible. The word unicorn(s) are in bold and italic to spot where they are in those verses for you to find in this purpose only.

**Daniel 8:5 –**

And as I was considering, behold, an he goat came from the west on the face of the whole earth, and touched not the ground: and the goat had a ***notable horn between his eyes.***

**Numbers 23:22 –**

God brought them out of Egypt; he hath as it were the strength of an ***unicorn.***

**Numbers 24:8 –**

God brought him forth out of Egypt; he hath as it were the strength of an **unicorn**: he shall eat up the nations his enemies, and shall break their bones, and pierce them through with his arrows.

**Deuteronomy 33:17 –**

His glory is like the firstling of his bullock, and his horns are like the horns of **unicorns**: with them he shall push the people together to the ends of the earth: and they are the ten thousands of Ephraim, and they are the thousands of Manasseh.

**Job 39:9 –**

Will the **unicorn** be willing to serve thee, or abide by thy crib?

**Job 39:10 –**

Canst thou bind the **unicorn** with his band in the furrow? or will he harrow the valleys after thee?

**Psalms 22:21 –**

Save me from the lion's mouth: for thou hast heard me from the horns of the **unicorns**.

**Psalms 29:6 –**

He maketh them also to skip like a calf; Lebanon and Sirion like a young **unicorn**.

**Psalm 92:10 –**

But my horn shalt thou exalt like the horn of an **unicorn**: I shall be anointed with fresh oil.

**Isaiah 34:7 –**

And the **unicorns** shall come down with them, and the bullocks with the bulls; and their land shall be soaked with blood, and their dust made fat with fatness.

So, therefore, the Behemoth and Leviathan that Job saw are correctly seen. With King James/Authorized Version, there are Unicorns found in Luther's German Bible (1534), as well as the Septuagint, and the Latin Vulgate translated this Hebrew word Re'em meaning Wild Ox. But the Ox is two horned. Wrong animal!

**Webster's Dictionary of 1828** stated that **Unicorn** as this described exactly in the dictionary: *1. an animal with one horn; the monoceros. this name is often applied to the rhinoceros.* (Webster, 1828). Wrong again. Rhinoceros are usually two horns vertically, not horizontally like the Oxen do.

Mistranslations through art and science are common. That is understandable and can be corrected when you are saved and read the Holy Bible and trust and faith in God (Psalm 118:8).

The famed Bernifal Cave with Neanderthal art from France did show a mammoth and a dinosaur going head to head fighting. A **Woolly Mammoth** and the illustration and sculptured art on the cave wall showed likely a horned Theropod Dinosaur on the left, perhaps an **Allosaurus**? See this picture found on [Ancient Dinosaur Depictions](#) at [Genesis Park](#) website.

During the Biblical times, the reign of Nebuchadnezzar, he had an artist to display many animals they have seen and placed them on walls in Babylonia region. It was

rediscovered in 1918 by German archaeologist Robert Koldewey and one of them was supposedly resembled to a **Dragon** but from my observation of that creature, it looks more like a dog because of the shape. However, if you look at the paws, with talons, and the horn on it, it was supposed to be like a **Unicorn**. Or a **Dragon** which quite gave away the talons and the tongue coming out of its mouth and the horn. Was Unicorn more of a **Dragon** which was more like.. a **Dinosaur** and not a mystical horse with a horn. You need to remember people like to tell a little different story passed down generations.

This is proven evidence of how people spread stories. I announced to someone to my right the night before my wedding, I told that person at this Deaf coffee event at a quick casual restaurant. Well, I recalled exactly the words I said. I watched from that person I told all the way around the table, about 20 or 30 people later, the person on my left quickly told me that I am going to get married! This took a few minutes and the wordings have changed. The last person really said differently about me getting married than I told the first person. This route of gossip took 15 minutes and yet, people changed this true story about me getting married.

This is the case with **Unicorn**.

Back to the art work. This is why the Babylonian art of the **Dragon** may have been altered. It was like a Pablo Picasso of art if you understand he distorted person's face and body in his art. This is the case with the Babylonian artist's perspective of his fine art. It looked more like the style of Art Nouveau-or New Art that exhibit decorative art. To see the picture, it is found on same link as the cave art with the **Wooly Mammoth** and perhaps an **Allosaurus**.

If those people have seen **Dinosaurs**, then **Dinosaurs** and even **Wooly Mammoth** were actually seen among humans. This brings to Young Earth Creationism Theory.

Then there are most common art are the Chinese **Dragons**. Chinese and Far East including Mongolia have witnessed numerous of **Dinosaurs**. This is where we get information from Marco Polo who saw a Dinosaur. Numerous of art including sculptures, painting, and more (see illustrations and photographs of such Dragons from

China in the [Genesis Park Collection](#). You see often in Chinese restaurants and buffet restaurants. They would be on placemats. In fact, for their religious purpose or new-age-style with their Chinese Zodiac, they have a **Dragon** every 12 years. They do have ox, rabbit, rat, rooster, and others. Only evidence in that Zodiac easily shown is a Dragon. There are so many evidences **Dragons** are told often in art and writing in Asia. Therefore, it is true they have had **Dinosaurs** among humans.

There are numerous pots, pans, and vases and artwork in many ancient civilizations. There is a theory possibility that such pyramids and large buildings were built not just by humans especially slaves. It was also built along with captured and tamed Dinosaurs and other extinct animals. Sure, they had **Oxen** to do work but Dinosaurs were stronger. For carnivore **Dinosaurs** and other extinct animals, they may have had harnesses over their mouths, cut off their talons, etc. Like they do that with Eagles today to cover up their beaks or dogs in a dog racing or for some uncontrollable dogs.

You need to recall that some species of **Dinosaurs** were huge. To name a few- **Brachiosaurus**, **Apatosaurus**, among others. Their torque of a pull would perhaps be equal to perhaps at least two tractor trailer engines. This is an opinion. A captured and tamed and Jaw-shut strap **Tyrannosaurus Rex** would be able to pull equal to a 1500 series pick-up truck with a V-8 5.2L or larger engine.

Take an Egyptian pyramid stone which was a limestone which was an average of 2.5 tons<sup>36</sup> A ton is equal to 2,000 pounds. That would be 5,000 pounds. That would be equal to a travel trailer a pick-up truck can haul.

Depending on what pick-up truck, the torque vary and what horsepower. Since we do not know how much of a pull a Dinosaur was since Science was very limited at the time for scientists of their day back then.

More than likely they used a Sauropod **Dinosaur** or a horned **Dinosaur** or smaller herbivore **Dinosaur** such as be able to haul a pyramid stone brick. A recent discovery

---

<sup>36</sup> **Building a Great Pyramid** <https://www.cheops-pyramide.ch/khufu-pyramid/khufu-numbers.html>  
Retrieved 14 July 2018

of a Dinosaur set of bones found in Egypt, ***Mansourasaurus***<sup>37</sup> may offer clues that this might be one of the Dinosaur used in Egypt to build pyramids. There has to be a great number of them hauling and shipping.

***Mansourasaurus*** was a large herbivore Dinosaur that fits in with this group called, ***Titanosauria***. They are part of group along with ***Titanosaurus***, ***Brontosaurus***, ***Apatosaurus***, etc.

It was possible they used that dinosaur. Even with the long tail in the way between the body and the stone. They may have used other short tailed ***Dinosaurs***. Perhaps they used ***Carcharodontosaurus*** which was a Theropod ***Dinosaur***. There is a proof that ***Dinosaurs*** lived during Egyptian times. Art in Egypt has shown their “Serpopard” which was a mix of Serpent and a Leopard. Both were common at the time as they are today.

If you noticed the word, Serpent. As you are aware of that most ***Dinosaurs*** are Reptiles, there are Snakes that are Reptiles. We humans called Snakes Serpents because of what the Bible says that God cursed this certain ***Serpent*** to crawl. Now that brings back to the Genesis chapter 3 Serpent that it might be a ***Dinosaur***, not a snake after all. Did Satan entered a ***Dinosaur***? It is possibility. And possibility of why many ***Dinosaurs*** extinct because of God cursed the ***Serpent*** that day six thousand years ago. There are many ***Dinosaurs*** especially a Sauropod would have extremely long neck and long whip-like tail.

It made sense because a herbivore sauropod are plant eater and eats leaves from trees. It's head would appear through tree branches. Let's read the verses first.

### **Genesis 3:1 –**

Now the serpent was more subtil than any beast of the field which the Lord God had made. And he said unto the woman, Yea, hath God said,  
**Ye shall not eat of every tree of the garden?**

---

<sup>37</sup> **A Bus-Sized Dinosaur is Found in Egypt and It Offers a Clue to an Ancient Mystery** By Mercedes Leguizamon and Saeed Ahmed, CNN Updated 4:53 AM ET, Tue January 30, 2018

Verse one clearly explained what the **Serpent** was like. It did not say it climbed up the tree like many artists did. That was an error. They painted snakes. See paintings at <https://www.google.com/search?q=paintings+of+serpent+with+eve+at+the+garden&tbm=isch&tbo=u&source=univ&sa=X&ved=0ahUKEwjNqcily57cAhUCL6wKHT-kAcoQsAQIJq&biw=875&bih=408>

And they are all wrong. They used the crawling snake! It was likely a Dinosaur. Remember all Dinosaurs and every animals were herbivore. All were vegetarians before the fall.

Back to Genesis chapter 3 verse 1. It states clearly word for word what kind of beast. Subtil in the Bible means evil. Other meaning is thin. Yes, snakes are thin. But so were **Dinosaurs** especially **Sauropods**. Some **Theropods** were also. They are long necked. And long-tailed. It has to be more of a **Theropod** because of the word Subtil.

The verse also said "*than any beast of the field*" which clearly states that it could have been a **Theropod** because it sounds as if it is a mean carnivore type of dinosaur. Clearly **Dinosaurs** were more beautiful looking than what artists thought they were in those drab olive green looking. Slowly artists are catching on though with Dinosaurs in more colorful appearing skins, scales, and even some maybe feathers and hairs and furs. Was **Tyrannosaurus-Rex** was responsible? Likely not because they found many skeletons. This one is hard one to pinpoint because of two main reasons: what cursed snake today was resulted previous life as a **Dinosaur**? We do not know. The second reason is the Great Flood has washed away skeletons. We will find out in Heaven.

## //QUESTIONS ABOUT THE SKELETONS//

We do not know about the Skeletons during the Flood. Because of landscape has changed and because of how it worked. There is evidence that there are shells and marine life are found on mountains. Mountains were created during and immediately after the Great Flood. It is because of Strada folded. If you recalled driving your favorite vehicle everyday coming to a stop light and you feel it is a bit bumpy at the stoplight? Yes, it is because the asphalt act like a rug in your home became folded due

to the weight of the vehicles stopped every two minutes every day for years. The weather is also responsible for the tar to soften on hot summer day and harden in wintertime. The very same have caused landmass to fold and become mountains. Where I resides in the Finger Lakes region which stretch from Letchworth State Park to Panther Lake in Tug Hill region in Upstate New York. The Finger Lakes and valleys where there are no water such as Tully Valley and Cortland Valley pose land was folded originally by the Great Flood. Lake Ontario would have been much bigger had the land rise pushed by the Atlantic Ocean was not occurred. Also the Finger Lakes and Great Lakes are because you know it is cooler by waterside such as coastal shores, lake shores, etc. than it is inland. This is reason why people love living by any bodies of water. This brings to the point in the Great Flood that the Northern Hemisphere was literally frozen because of the Great Flood. The more north you go, the colder it was. It was because of a year of no sunshine due to the flood.

Here is proven with modern day comparison of temperatures with non-tropical regions, both North and South of Tropical region. Earth has five regions. North Frigid Zone, North Temperate Zone, Torrid Zone also known as the Tropics, South Temperate Zone, and South Frigid Zone. But also there are Earth Climate Zones. Ice Cap, Tundra, Boreal, Warm Temperature, Subtropical, and Tropical.

The North Temperate Zone has four seasons-Spring, Summer, Fall, and Winter. But with the Tropics, it is usually one or two seasons. Wet and Dry. Then there are Frigid Zones. Usually Ice cap and more.

Before the Great Flood, there were no Ice Cap Zones. Arctic Ocean was wide open. All the marine life were found there. So was Antarctica with land that had tropical trees. It is a fact they found it was tropical area for Antarctica!<sup>38</sup> It shows proof that this occurred before the Great Flood.

---

<sup>38</sup> **Antarctica once covered in palm trees, scientists discover.** By Fox News, August 02, 2012. <http://www.foxnews.com/tech/2012/08/02/antarctica-once-covered-in-palm-trees-scientists-discover.html>.

Image animals and maybe humans were able to live in Antarctica. Image they wore shorts... well, tunics and no furs to cover. But with the Great Flood, temperature changes. The Earth got colder. The shaking and quakes have shift platonic apart but not as far. Remember discussion regarding the Continental Shelves many pages back? Water was a lot less on the surface of Earth as it was before that. You need to remember the depth of seas are not as far as it is to the many cores of Earth itself. Anyway, back to the temperature. You recalled swimming in your lake or ocean near you? Did you feel it is much cooler than the temperature you are standing on the beach? Never mind the sand itself that is hot on a hot day. I am referring to the air and water temperature. Both are quite different. That is why so many people love to go to beaches on a hot day: to cool off in ocean or lake!

That is one of the points that water is much colder. Second of all, the temperature is usually cooler near a body of water especially ocean in the Temperate Zones (both North and South), the beachfront is cooler than in land.

Take comparison between Syracuse, NY which is 536 feet above sea level according to my wit on a plane's monitor that showed how high it is above sea level at the airport. Compare to New York City temperature. Today July 23, 2018, it is 83 Degrees F with clouds and a few miles per hour winds. In New York City, it is 78 Degrees F with rain. It may not be fair to compare because it is raining there. But rain does cool off temperature. This is according to [www.localsyr.com](http://www.localsyr.com) and google temperature.

Let compare Syracuse, NY weather day to day. The temperature drops to cool when it does rain. When it is not, it gets hotter in summertime. Rain and living by the sea temperature are usually cooler. That shows water does cool temperature.

In the Tropics, depends on where you are, the water is warmer yes. But so is the temperature which is hotter. As I recalled in Costa Rica when we were in Playa Jaco for a Deaf Christian camp in 1998, San Jose was averaging about 88 Degrees F and Playa Jaco was because it was a coastline, it was about 100 Degrees F. Water was comfortable temperature perhaps around 80 Degrees. It was because it is directly in the area of El Nino occurred. Water is always cooler than the air.

Because of the Great Flood covered the Earth as said in Genesis chapter 7, clearly the start of the Ice Age. That was the real Ice Age. Not millions of years ago or not 10,000 years ago. Just merely 4000 years ago, give or take. Ice Age began with the Great Flood. Because of this, forcing new zones and bring weather forecast daily ever since.

**Genesis 8:22 –**

While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease.

This began after the Great Flood. They had no rain ever before the Flood! Never! God kept the soil moist for the nature to grow. Trees, fruits, vegetables, and more grew out of ground. This is why they all had roots to get water.

Rivers were quite common at the time before and immediately after.

This brings where the Garden of Eden was. Landscape changed but because of Moses heard from God and wrote where the rivers are. That is another subject to discuss. Likely the Persian Gulf today. Underwater. Water did rise.

Of course, water rose above all highest hills and they were formed into mountains from hills. Water was vaped into the air. Rivers in the air. Yes. And others went into caves and cauldrons. But also many turned to ice and glaciers. Because of the flood, glaciers were much vast that covered right down as far as Great Lakes in North America and pretty much covered entire Russia and mostly Europe. If not, entire Europe because of the Mediterranean Sea.

Before the flood, likely lands were pretty much similar to permafrost. Spongy land where it was teeming with nature. Deserts, on another hand were all aired and dry. Other lands were swampy and marshes. To view this, Central New York does have this environment since this location is in the Finger Lakes Region that was pretty much in wetter zone than say, Death Valley in California. Florida is another good example

because Florida is a peninsula. Not only that, the land under that state is pretty much water. This is why Florida has sinkholes. This is perhaps another reason why many lands disappeared into water due to Earth grinning because of Man's sins.

Not only that, hurricanes, earthquakes, and more have caused such shapes. Look at the Gulf of Mexico. Hurricanes in past four thousand years have caused that shape. Look at the coastal line from Florida up to say, New York City-Long Island. The shape of lands curved because of hurricanes carved along with daily normal waves have caused. Beaches are much narrower between dry land and the water compared to Pacific side which is much wider.

Now, the Gulf of (Baja) California in Mexico was result of the earthquake. If and when it happens, that same San Andrea Fault will carve through the State of California to make a much longer Gulf of California. It can turn to an island for Baja and State of California with Cabo, Los Angeles, and San Diego, as well as the San Francisco-Oakland-San Jose Mega City.

## //TRANSFORMATIONISM//

Evolution says the Atheists, Scientists, and Evolutionists is a slow process. Wrong. It is the Earth Grinning that causes the quick changes. Quick Events that makes Transformation quickly. Much quicker than Evolution. Transformationism is my theory of quick changes occurred. For instance, you can see quickly with the volcanos such as St. Mount Helens in 1980 and the Mount Vesuvius in Pompeii, Roman Empire (Italy) in 79 A.D. Hurricane Katerina would have wiped out New Orleans permanently if humans did not pump out the city and would have laid undersea. This is not new. Many undersea cities are being discovered. Because of the Great Flood is a quick Transformatic event. Look at the cities discovered or known lost (and one possibility- Atlantis) including Port Royal, Jamaica which went under in June 1692 due to a 7.5 Richter Scale. 2,000 people perished. Dwarka in India was once a folklore because people recalled that city through generations till it was discovered and it was true.

Other events such as an Act of God such as Sodom and Gomorrah that God destroyed by fire as promised not to flood again.

Now back to the point. Mountains and hills were Transformed quickly due to the Great Flood. Cauldrons of Pre-Flood spouted out of underground to flood the Earth. That transformed as well. And because of this whole year of the flood, this brings no sun, the coolness of Earth caused Ice Age. That is a Transformation quickly to become cold after comfortable warmth of 2000 years without rain.

## //THE SLOW EXTINCTION OF DINOSAURS//

Starting with Adam and Eve with their sins, animals were dying along with humans because God warned Man will die and turned to dust again.

### **Genesis 3:19 –**

In the sweat of thy face shalt thou eat bread, till thou return unto the ground; for out of it wast thou taken: for dust thou art, and unto **dust shalt thou return.**

Bolded to emphasis the point. Because of the curse, everything did get cursed including animals.

Including that one kind of possibility of a Dinosaur or a walking Snake that was possessed by Satan who spoke to the woman was cursed into an **Earthworm**, not a snake. Many Dinosaurs were literally Snakes! Long necks, long legs-the **Sauropods** were literally giant walking snakes.

### **Genesis 3:14 –**

And the Lord God said unto the serpent, **Because thou hast done this, thou art cursed above all cattle, and above every beast of the field;**

upon thy belly shalt thou go, and **dust shalt thou eat all the days of thy life:**

What species does this eat dirt? Snakes are carnivores so they are not the right ones. It is **Earthworm!** It has no eyes and all it does is to eat dirt daily. God repurposed them to become “plumbers” to allow rainwater into the ground to allow nature to have water such as trees and grasses. Clearly God blinded the Earthworms because of their sins. It makes perfect sense because Satan in the Serpent lied. It has to do with “Opening their eyes.”

**Genesis 3:5-7 –**

**5** For God doth know that in the day ye eat thereof, then **your eyes shall be opened**, and ye shall be as gods, knowing good and evil.

**6** And when the woman saw that the tree was good for food, and that it was **pleasant to the eyes**, and a tree to be desired to make one wise, she took of the fruit thereof, and did eat, and gave also unto her husband with her; and he did eat.

**7** And **the eyes of them both were opened**, and they knew that they were naked; and they sewed fig leaves together, and made themselves aprons.

So, clearly, it was opposite. God not only cursed the Serpent-the Dinosaur or a walking Snake of large scale into small finger sized **Earthworm** with just mouth, and removed its eyes.

So, that Serpent, a type of Dinosaur went extinct first. The second round of killing off was the Flood. Hundreds, if not, thousands or even millions of Dinosaurs among with Mammals, birds, and even Reptiles and Marine life were wiped out due to the Flood and

God spared the animals including the Dinosaurs. Because they – beasts (*nephesh chayyāh*) all were Herbivores in Pre-Flood and during the Great Flood. Nephesh chayyāh means “Living Creatures”

**Genesis 1:29-30 –**

**29** And God said, Behold, I have **given you every herb bearing seed, which is upon the face of all the earth, and every tree, in the which is the fruit of a tree yielding seed;** to you it shall be for meat.

**30** And to every beast (*nephesh chayyāh*) of the earth, and to every fowl of the air, and to every thing that creepeth upon the earth, wherein there is life, I have **given every green herb for meat:** and it was so.

They all ate fruits and vegetables. All animals except for the cursed *Serpent* turned to Earthworm which ate dirt. BUT before that Serpent was cursed, it also ate fruits and herbs. Why do you think we breathe oxygen from all green vegetation? All the *Flora* are to cooperate with the *Fauna*. It works hand to hand this method. *Flora* gives us fruits and vegetables as well as oxygen and needs for our bodies as we, the *Fauna* gives them Carbon Dioxide and our body needs. We-both *Humans* and Animals turn back to dust, flesh-wise and the *Flora* needs that from us.

But animals did not eat meat till AFTER the Flood. This verse clearly states directly to Man. In this case, God spoke to Noah and his family.

**Genesis 9:3 –**

Every moving thing that liveth shall be meat for you; even as the green herb have I given you all things.

This occurred immediately after they settled down on Mount Ararat. So, from that point on, the "Race for survival" began. Animals devour other animals and Humans hunted. This is the beginning of hunting and breeding for human consumption such as Lincoln Red Cattle, Angus, and more. This is reason why **Aurochs** may have went extinct. The last one was a wild **Auroch** which died in a Polish forest in 1627. They domesticated the **Aurochs** and likely interbreed similar to what they have done to Cainine-dogs. For instance, **West Highland Terriers** or known as "**Westies**" were bred directly from **Wheaten** or **Cream Cairn Terriers**. Originally was a rejectee since the breeder did not want a white **Cairn Terrier**. Later was discovered and re-breed them. Same with another as a mix- A **Labrador Retriever** with a **Poodle**. It is now breeding and recognized by AKC, a **Labradoodle**. Before that, **Dogs** were domesticated wolves, pirate dogs, coyotes, etc. It takes at least two generations to temper and domesticate wild **Wolves**, **Dire Wolves**, **Leptocyon**, **Coyotes**, and other animals then interbreed them into dogs.

Bovines were likely crossed breed for better meat and dairy products. Now, Dinosaurs may have also been domesticated. Likely some species were. Perhaps smaller Dinosaurs like **Turtles**, **Iguanas**, and extinct versions such as **Aquilops**, **Europasaurus**, and **Gasparinisaura**.

I strongly believe it was **Dinosaurs** that helped built the pyramids in Egypt and Central America. Much stronger than an army full of slaves. And they were also used for other needs.

Some **Dinosaurs** were domesticity as military weapons. Triceratops and related horned **Dinosaurs** were used for weapons to dart into castles and forts. But also they were died out because of two reasons: horns. Just the same problem as **Rhinos** and **Elephants** today are facing.

They would be hauling heavy weapon equipment or instead of **Horses**, they use **Dinosaurs** to bowl through the enemy as it is like bowling ball hitting the pins. Dinosaurs were killed in the act of war.

Humans needed food consumption. As I spoke earlier about Marco Polo who saw how Chinese bred and hunted **Dinosaurs** for food, medicine, etc. Today, they still use fossils for medical usage as medicine. This act have caused extinction.

Native Americans have admitted they were blamed for mass extinction of Woolly Mammoths by over hunting for their hides, and food. They needed it for clothing, their huts and teepees. I recalled reading it in a newspapers back in 1990's but the source online is unavailable due to possibility of Liberals do not want to admit Mankind caused mass extinction of animals. It is a fact that Mankind has killed more recent animals such as the Rhinos and Elephants that several species have already went extinct in past twenty or so years. That is a proven fact. Therefore, Dinosaurs went extinct because of Mankind! Man wiped them out. Diseases also were factors as evident shown with mass death of whales and birds. The **Passenger Pigeon** extinct because of people killed off that bird for cheap meat in North America and Europe because at the time, many people were very poor. It is proven fact it is human responsibility that we have killed off.

Some are natural mass deaths such as the Honey Bee of more recent times.<sup>39</sup> It was due to some bacteria in the bees. It was communicable disease like the Plague that Humans faced in Europe during the Dark and Middle Ages.

Human occupation of regions that are habitation for wild animals are threatened. For instance, **Dodo** was one example that when Humans arrived on the Island of Mauritius

Then there are a few **Dinosaurs** left.

---

<sup>39</sup> **New clue emerges in possible cause of mass bee deaths** By: Joe Clark, WCMH-TV, Jan 03, 2017 07:49 AM EST [https://www.nbc4i.com/news/new-clue-emerges-in-possible-cause-of-mass-bee-deaths\\_2018032107483625/1064902644](https://www.nbc4i.com/news/new-clue-emerges-in-possible-cause-of-mass-bee-deaths_2018032107483625/1064902644) Retrieved 24 June 2018

## !!!THERE ARE STILL AROUND US!!!

Yes, Dinosaurs are still around. You have not even think about it. You were brainwashed by the Liberals that the Dinosaurs died out. Wrong. There are Dinosaurs still among us. Can you name them that are quite similar? Sure, I can name quite a bit but you can add more that I may miss out. Here is a list I name them in bold and description of each.

**Iguanas.** The herbivore lizard-like are still around and they have a few species. I saw a pet version that is about two feet long. It is green and you can have it hung on your shirt. Common in Central America, Caribbean, South America. There are **Green** (or known as **American) Iguana, Lesser Antillean iguana.** I saw one really big. It was on a 2 way road in Costa Rica near Playa Jaco in the forest area. It was walking cross the street and I can snap picture in my head the head of that Green Iguana was on one shoulder edge of the road and the tail tip touched the other shoulder edge of the road. It should be what.. 19 or 20 feet long. Upon my research, Iguanas are not any bigger than five feet long.

This bring a question, what did I see with my missionary friend and my pastor? Another undiscovered species? Was it a Dinosaur that we saw? Then there are Iguanas at the

Bird Zoo outside of San Jose, Costa Rica. They have Iguanas as big as humans or slightly bigger. But what did we see in Costa Rica? See, Dinosaurs are still around. Like the **Mokele-Mbembe** in Africa? The natives there said they saw a Dinosaur.<sup>40</sup> Likely a Sauropod. They even said that they killed a **Mokele-Mbembe** in the 1960s and they took a couple of days to cut them up because it was so large that requires a lot of time to do so. Then they had a celebration and ate the meat. Then they died because of meat poisoning. It could have been a diseased Dinosaur or we were not allowed to eat that. Like the Iguanas we are not supposed to eat because some food is said to have Salmonella (Salmonellosis). As for the **Mokele-Mbembe** case causing this group of people death was because first of all, they live in tropics region which can swell over 90 degrees outside and it took a couple of days for them to cut up and deliver food to their community. Food is known to be spoiled in one hour when it is over 90 degrees outside.<sup>41</sup> It is a fact. That tribe was not educated and may have undercooked the meat. We do not know.

This showed proof that the Dinosaur is for real and more recent times.

**Mokele-Mbembe.** See above paragraph. It is likely a Sauropod living in the Jungle of Congo. It has become a folklore. Television productions have filmed there and several expeditions have explored the war-ravaged region. This is Cryptozoologists' favorite subject along with Bigfoot, Loch Ness Monster, Champ, and several other Cryptids. This is controversial subject because the Liberals and Scientists are opposing the idea of Cryptids are around. The next animal I listed totally debunked Scientists' theory.

---

<sup>40</sup> **Mokele-Mbembe.** By Cryptid Wiki <http://cryptidz.wikia.com/wiki/Mokèlé-mbèmbé> Retrieved 25 July 2018.

<sup>41</sup> **Food Poisoning: What to Know.** <https://www.webmd.com/food-recipes/food-poisoning/food-poisoning-causes#1> Retrieved 25 July 2018.

**Coelacanth.** It is so-called pre-historic fish still alive. They caught one off coast of South Africa in 1938.<sup>42</sup> It was alive when they caught it. Since then, they discovered a few but it is now critical endangered due to a few still remains. It has two species of the Coelacanths. The second species is the Indonesian Coelacanth that was discovered in 1998 in that country. An awesome video of the “Fossil Fish” Or “Living Fossil” on a National Geographic video in this website, [Owlcation](#). Cryptozoologists would use this fish as their battle cry against Skeptics. Let me explain more new battle cries Cryptozoologists will want to hear. Read on.

The next few “Pre-historical” marine life are still exist that are on a list from [Listverse.com](#), a website:

**Hagfish.** This weird fish that looks like an Eel. It has not one but two brains. Two brains! This marine life has blindness though and is bottom feeder. Still around since the Creation.

**Lancetfish.** It sure does look like a mix of a horror sea monster with teeth and awesome fins like a Swordfish or Sailfish has. Still around.

**Arowana.** This fish which is nicknamed as “Dragon-Fish” in China. It is found in many regions such as in China, Asia, Africa, and Australia. Owing as a pet fish they say brings a superfictional “good luck” whatever that means.

**Friiled Shark.** This shark does not look like any sharks we know today. The head looks bit appeared like a head of a snake and the rest of the body like a finned fish with weird grills like a shark would have but the grills are not as clear like other sharks we know today. It was recently filmed alive since they are only found in Deep Oceans. Not a surface marine life. Fishermen and scientists that gather marine life closer to the surface found dead Friiled Sharks. This is one of more recent discoveries. A video capture one alive, again, on [Youtube](#). Warning: the video will freak you out when viewing it.

---

<sup>42</sup> **Coelacanth.** Wikipedia. <https://en.wikipedia.org/wiki/Coelacanth> Retrieved 25 July 2018.

This reminded me of a dead ***Plesiosaur*** that was netted in 1977 and was photographed before they had to dump it in the ocean because of the odor was unbearable to the Japanese professional fish netters off the coast of New Zealand.<sup>43</sup> The carcass was still covered with its skin. It appeared to be dead for a few months. Not “millions of years ago.”

***Sturgeon.*** This boney fish is a bottom feeder but can come up and even can attack boats and land on them! They have injured or even killed people! They are very much of attackers than what sharks would do. Sharks grabs and kill you and eat you. Well, some larger Sharks do. Sturgeons are more of attackers. Like a bully would punch a kid. Sharks acts more like murderers. The Sturgeon is common name for 27 species that belongs to Acipenseridae. Some of those species went extinct. But others are on threatened or endangered list.

***Arapaima.*** This fish is a close relative to the ***Arowana.*** They have similar appearance and the spelling are quite close as well. Still alive.

***Sawfish.*** This is quite interesting and very different kind of marine life. It literally has a saw. It is shaped like a chainsaw. Perhaps this is how the chainsaw inventor may have come up with an idea. Anyway, the ***Sawfish*** does saw its large victim. It was proven that they found a fossil, a ***Spinosaurus***, a Dinosaur had this fish for its delicious meal because of its size. It is said to grow to 14 plus feet long with the saw. Likely this occurred between more recent times and Noah’s Ark. That was just 4,000 years somewhere.

***Alligator Gar.*** This fish that looks like it was a hybrid between a fish and an Alligator. Almost every major class of animals do look like each other. Like Humans and Gorillas which has similar humanoid appearance. It is not similar with many reasons. The Alligator Gar still around although its number has shrink. This 13’ feet long creature is known to bite humans. However, no deaths reported.

---

<sup>43</sup> **Plesiosaur Carcass Caught in Japanese Fishing Nets | Zuiyo-Maru Globster, 1977** By AllThings Creepy, March 5, 2016 You Tube, <https://www.youtube.com/watch?v=tPyOJ1kFqvA>

***Polypterus Senegalus***. Now, that sounds like a dinosaur name. It was originally found along with other fossils and because of its mutli-fins on its spine which resembled to several Dinosaurs including ***Spinosaurus***. Still living.

Now, let's return to the land of the lost Dinosaurs still alive.

***Komodo Dragon***. They are by largest living lizard and possibility largest surviving known ***Dinosaur*** to science today. Grows to 10 feet. It survives well due its habitat in harsh climate in Indonesia. They are on a few islands including Komodo, Flores, and Rinca and more. They will eat anything even humans.<sup>44</sup>

Indonesia is one of the deadest archipelago in the world because of Komodo Dragons are known to attack humans as well as supersized snakes large enough to swallow humans there. Animals in Indonesia are quite large compared to any part of the world because of rich in oxygen due to thick forestry and possibility because of rich oxygen vapors from oceans. That is my opinion. The proof are known that snakes are vast and can swallow humans.<sup>45</sup> That Snake, ***Reticulated Python***, swallowed an Indonesian woman after it captured her and squeezed her. She could not make it in time to kill it with her machete. It is common in Indonesia when people disappeared and the police knows it that snakes and other animals would capture humans and eat them then the police would find those ***Snakes*** and ***Dragons*** and kill those animals and open them up to find evidence of the victims.

Well, ***Komodo Dragons*** do the same job by killing humans and eat them. The status is vulnerable presently due to human presence, new civilizations in the regions, natural disasters, and poaching.

---

<sup>44</sup> **Komodo Dragon**, By National Geographic Society, <https://www.nationalgeographic.com/animals/reptiles/k/komodo-dragon/>, Retrieved 25 July 2018.

<sup>45</sup> **How a giant python swallowed an Indonesian woman**. By BBC.com, 18 June 2018, <https://www.bbc.com/news/world-asia-39427462>, Retrieved 25 July 2018.

**Lizards.** There are many lizards today. Since the oxygen is presently lower than Pre-Flood Era which has reduced to merely 21 percent.<sup>46</sup> This is why **Dragonflies** and other insects had to be larger because the richer the oxygen for them to breathe for small size, the more harmful it would have been for them. This is perhaps why people transformed **Dragonflies** to be fairies in folklore stories because of its size and both fairies and **Dragonflies** both have four wings at the time. Oxygen at the Pre-Flood Era was at 32 percent, not the current 21 percent according to a research and was published in Time Magazine.<sup>47</sup>

In Pre-Flood Era, the evidence clearly shown with larger animals, insects, and humans as well but also they all lived longer. This is another evident of why Dinosaurs were vast and ruled the Earth. However, Oxygen reduced and air pressure was dropped. This is because God made nature to have shorter life. Humans were reduced both physically and longevity from over 7 feet and 900 plus years to 5' 8" and 120 years respectively immediately after the flood (Genesis 6:3) then further reduce oxygen when God reduced Man to just 70 to 80 years of age (Psalm 90:10). Diet were another factor. Now, after the Flood, God told Noah and his family to start eating meat. Meat does reduce your lifetime. It is know that red meat can cause heart attack.<sup>48</sup>

Now, back to the Lizards. There are 5600 known species of Lizards today. It would take too many pages to list them all but Lizards are Dinosaurs. The small ones survived compared to the large ones. The smaller they are, the better they survive. The evident also point this that the smaller ones survives. Look at Birds. Smaller birds are more common than larger ones such as **American Eagles** which is on critical as well as the **Condor** which is extremely critical or near extinction. Thanks to humans helping

long tons. The weight is distributed because of its long snake-like body-long neck and long tail. A ton is 2000 pounds. Therefore, it is 30,000 pounds distributed through its body. This means roughly equal to 35 **Anguses!** Likely they wasted a lot of meat on a Dinosaur because human population were smaller and no refrigeration system such as freezers and refrigerator which was not yet invented and perfected till 19<sup>th</sup> and 20<sup>th</sup> Centuries.

Here are the list of **Dinosaurs** that were officially around humans according to authors, artists, and records.

**Mokele-Mbembe.** This **Dinosaur** is a **Sauropod** herbivore Dinosaur that are possibility exist. Or may have just recently went extinct. In Africa. Cryptozoologists and Creationists are still trying to find them. Tribes even hunt them. Please read in past few pages regarding the **Mokele-Mbembe** for further information. Many documentaries discuss this dinosaur. A specific species is unknown. Extinct unknown. Proof are natives who are uneducated and they were pointed out during expeditions of explorers and Cryptozoologists they saw Dinosaurs (Mokele-Mbembe).

**Triceratops.** This Dinosaur is horned Herbivore **Ceratopsid**. Similar to what mammal called **Rhinoceros** but quite different classification though. Evidences have shown that **Triceratops** attacked castles in France because of the formations of horns matched to the Triceratops and its related cousins whichever were used at the time. Castles were common between around 300 AD and 1800s. This showed they were more recent. This fact was shown in a Christian book that was published in around late 1980s or early 1990s. They also explained that **Triceratops** and related Dinosaurs were used for transportation purposes such as hauling cargo, rocks, and people needed ride to travel to another city, etc. Extinct around the Renaissance Era. Proof: rhythmic attacks holes on castle walls.

**Woolly Mammoths.** The beloved **Elephants** that went extinct roughly 4000 years ago due to the climate changes after the Great Flood. They were even found in permafrost and ice which saved well-preserved species for science analysis. They were thick coated for colder climate although **Woolly Mammoths** were living in room temperature climate for first 2000 years since the Creation week. This means their body had to

readjust to the cold and freezing temperatures for survival. Proof: Native Americans have apologized for its mass extinction.

Extinct just about a couple of thousands of years ago. Proof are shown in research and paintings.

***Plesiosaurs.*** Champ in Lake Champlain, New York/Vermont, Loch Ness Monster or known as Nessie in Loch Ness in Scotland, and many more including Ogoopogo, and lesser known such as Thetis Lake Monster, Lake Erie Monster, Bessie, Manipogo, Winnipogo, Cressie, Igopogo, Mussie, and more. In many lakes globally. Usually long narrow, deep lakes. Usually murky and cold lakes in Temperate Zones or Sub-Tundra Region such as Canada, Northern United States, Northern Europe, United Kingdom, and Siberia.

Some of the lake monsters may have extinct in more recent times or may still exist. Whatever and whenever it happens, always needs to update their verification of species. Proofs are always updated with witnesses seeing creatures.

In the book of Job, Chapter 41, Job saw a lake monster and its name was ***Leviathan.***

***Brontosaurus*** or ***Apotosaurus.*** The Book of Job explained this species in the Bible as said in Job chapter 40 (especially verse 15 which Job named it ***Behemoth.***) We do not know exactly what species Job saw and described. However, this species breathed fire... as said verse 24. Perhaps they were gasses. Like a Bovine Cow. Both Bovine and Herbivore Dinosaurs both have one thing in common: They both eat vegetation such as grasses, and leaves. And then likely both of them produce methane gasses after digestion through their interior. Sauropods in fact swallow rocks and pebble stones into their stomach to function as grinders like you grid herbs into medicine in a Pharmacia pill crusher or grinder. This can give off flammable methane gasses hence the "flames" coming out of their noses or mouths. Behemoth may have been an entirely separate species that modern day scientists did not know what species it was originally called.

***Behemoth.*** See ***Brontosaurus*** or ***Apotosaurus.***

**Leviathans.** Job saw a lake monster. See **Plesiosaurs**.

**Dragons.** See **Brontosaurus** or **Apotosaurus**.

**Mastodon.** This animal many people thought were related to **Woolly Mammoths** but not quite. They were in the same class of **Elephants**. But not quite. Both roamed in the same era and neighborhood. Extinct just about a couple of thousands of years ago. Proof are shown in research and paintings.

**Unicorns.** A favorite animal in folklore and stories. Many Biblical verses shown the Unicorns are in the Bible. Deuteronomy 33:17, Psalm 22:21, and Isaiah 34:7. Today Unicorns in folklore exhibit as a white horse with a twirling horn on its forehead. According to \*\*\*American Encyclopedia of Dinosaurs and Extinct Animals”, they do not list any single horned horse however, Equus—known as horse psychology are quite similar to (deer) **Cervidae** – known as deer. Both distinctive animals have four hoofs and slender legs.

If they say folklore and legends have characters such as animals or even human, they are based loosely on real animals and people. Such as the **Dragons** that the Chinese used often. This is based on real carnivores such the one Marco Polo saw. Then **Unicorns** are real. There are many species of animals are being discovered both living and dead. Therefore, **Unicorns, Dragons, Thunderbirds**, and more are for real.

**Thunderbirds.** The Native Americans spoke highly of them. See **Pterodactyls**

**Pterodactyls.** The flying bat-like creature that once roamed the skies during Biblical times and even more recent as 19<sup>th</sup> Century. There were proof in a photograph of Wild Wild West cowboys proudly hunted such large creature and all the men stood to line up from wing tip to another. This would be about twenty feet wide. The Native Americans used this bird on the Tele-poles. Some Native American tribes even used feathers to make their outfits representing the **Thunderbirds**. Likely the **Thunderbirds** were **Pterodactyls**.

There are numerous of reports from the Wild West on this type of avian **Dinosaurs**. See [Mysterious Living Dinosaurs of the Wild West](#). Very informative at this site. Photographs whatever it may be faux or factual, they showed apparently for real.

Even as more recent times such in Summer 1977 that one of those **Thunderbirds** grabbed a boy in the back yard and flew over his house but because of the boy fought the bird by wiggling and people were shouting and throwing things so the bird dropped the boy in the front yard and flew away. If there were enough people seen this and even the boy himself. Then the evidence is very strong that it may still be alive. This occurred in Ohio.

The birds had several species that went extinct or may still be around would be at least a couple different species including **Pterodactyls**.

Even the “*Moth-man*” might be actually a **Pterodactyl** because no one could actually see its actual physical features because all of the people who witnessed this oddity occurred at night. **Pterodactyls** exhibits similar characters as people described.

**Big Foot**. Genetic name for several species of the tall massive gorillas or the Giants the Bible speak of. This is another subject for another book.

Species including **Sasquatch**, **Skunk Ape**, **Yeti**, and more. They are the possibility of a related extinct species called, **Gigantopithecus** which may have been a favorite choice by Cryptozoologists.

Or for Christian perspective, it would have or could have been one or the other: descendants of Esau as said Genesis.

### **Genesis 25:25 –**

And the first came out **red**, all over like an **hairy garment**; and they called his name Esau.

Both Esau and ***Gigantopithecus*** both had two main things in common, maybe three. Both were tall, hairy, and were red colored. The ***Gigantopithecus***<sup>49</sup> were said to have similar features to Esau according to ***Wikipedia***.

The shape however was quite different than the likely Bigfoot for Esau. So, this could be another answer: the gene was inherited from, with the possibility, the race of Giants of Genesis chapter 6.

### **Genesis 6:2 and 4 –**

**2** That the sons of God saw the daughters of men that they were fair; and they took them wives of all which they chose.

**4** There were giants in the earth in those days; and also after that, when the sons of God came in unto the daughters of men, and they bare children to them, the same became mighty men which were of old, men of renown.

Or it could have been an act of what they are called, *Zoophilia* or known as *Bestiality* in which humans have carnal activity with an animal. It is even mentioned in the Bible that God forbid. Here are three verses to explain the forbidden act.

### **Leviticus 18:23 –**

Neither shalt thou lie with any beast to defile thyself therewith: neither shall any woman stand before a beast to lie down thereto: it is confusion.

---

<sup>49</sup> ***Gigantopithecus*** by Wikipedia, <https://en.wikipedia.org/wiki/Gigantopithecus> Retrieved 03 August 2018.

**Exodus 22:19 –**

Whosoever lieth with a beast shall surely be put to death.

**Leviticus 20:15-16—**

**15** And if a man lie with a beast, he shall surely be put to death: and ye shall slay the beast.

**16** And if a woman approach unto any beast, and lie down thereto, thou shalt kill the woman, and the beast: they shall surely be put to death; their blood shall be upon them

In Exodus 22 and Levi 20, both said shall put to death. God will punish them by placing them to death and the verse 16 in Levi 20 clearly said put to death and how they will be dead. The animal blood will be upon those humans who have had sex with animals. And it is true fact proven. In Brazil, they discovered men has penile cancer more likely when they have had sex with an animal or often with animals than men who never had sex with a human female.<sup>50</sup>

In fact, other sexual diseases can be transferrable as well. It is known likely an HIV virus transferred to human through beastity with an affected animal.

However, some animals have had crossed-breed and humans have crossed breed animals. For instance, today there are 184 recognized breeds by American Kennel Club<sup>51</sup> but they are 99 percent crossed breed by humans. Having said before, with an example-a ***West Highland Terrier*** was bred from ***Cairn Terrier***.

---

<sup>50</sup> **Study Links Bestiality, Penile Cancer. Study found 35% of rural Brazilian men had done it.** By Greg Wilson, NBCDFW.com, Nov 8, 2011, 10:42 AM CST, Updated on Nov 8, 2011 at 1:06 PM CST. <https://www.nbcdfw.com/news/weird/Study-Links-Bestiality-Penile-Cancer-133441568.html> Retrieved on 03 August 2018.

<sup>51</sup> **American Kennel Club.** Manual count by the author. Counted on 03 August 2018.

The same occurred with many animals. Some escaped and become feral and because of some of their makeup of their genetic genes and DNA, such a feral dog had carnal moments with a wild animal, maybe a wolf. This is the case when people thought they sighted a **Chupacabra**. Sometimes it is dangerous for cross-breeding with a certain animal with another. But also the cause by diseases such as rabies which may have caused a rampage attack on an animal farm.

I have witnessed an actual **Chupacabra** which was the famous [Blanco Texas Chupacabra](#) that was already prepared by a taxidermist and set as a display at a Phoenix, New York museum which will be reopened. That **Chupacabra** was displayed as cross between a **Mexican Wolf** and a **Coyote**.<sup>52</sup>

As you can see, the mixed breed issues regarding mutants, mix-breeding health and issues problems such as found in **German Shepherds** having hip dysplasia and arthritis.

This is common what people thought of with the **Moth-man**. According to legends, they said that it was a government experiment gone awry and it escaped and the project was shut down. It was a cross breed between human and an avian type of animal. They say it was responsible for a bridge collapse in 1950's. I believe that the Moth-man was actually a demon of a specific role. Likely a demon of catastrophic event.

And the two big species very common known that are very much of a dinosaur-like: the **Crocodiles**, the **Gharial** and the **Alligators**.

**Crocodiles**. The leathery beasts that are common found in the Americas, Africa, Asia, and Australia. They are related but distant cousin of the **Alligators**. Also the **Gharials**. They are rather large, semi-water/semi-land predatory reptiles that scientists have correctly declared they lived among with the dinosaurs. They are called **Crocodylians**. They are distinguished by their snouts, mouths, and jaws. They said for the Gharials

---

<sup>52</sup> **Chupacabra Mystery ((SOLVED)) 2017 Update**. By Lost World Museum, 17 November 2017, <http://www.lostworldmuseum.com> Retrieved 03 August 2018.

are less than 200 left. IN 100 years, they will declare that the **Gharials** are the dinosaurs!

This is the whole point of this book, Dinosaurs did live among us.

**Gharials.** As said before, less than 200 remains and it is on the edge of extinction among with the White Rhino, etc.

**Alligators.** They are common in Sub-Tropical and Tropical regions similar to the **Crocodiles.** They are on the growth once again in the Southern United States that now they permit hunting in 2018. Both the **Crocodiles** and the feral invasive snakes in South Florida are in battle for control of nature and their formality of fighting has yet to be determined because of the equal power of fighting. In fact, a **Python Snake** swallowed an **Alligator** and exploded because of the sharp claws the **Alligator** can tear through organs such as stomach into the external skin and exploded.<sup>53</sup>

There are numerous of animals that are still out there that are possible related. **Snakes** are related in a way-long narrow tubular body similar to the **Dinosaurs** but the difference is that **Dinosaurs** have heads of different shapes and the long necks. That would be **Sauropods.** However, for beasts like **Triceratops,** they were not related to Sauropod. The terminology of **Dinosaurs** means "Terrible Lizards." In my opinion, some species that are not **Dinosaurs** such **Brontosaurus,** it is not a lizard. The terrible lizards of the past that went extinct would be raptors such as **velociraptor,** **Tyrannosaurs-Rex,** and related which they all are Theopods. **Triceratops** would not be a lizard at all. It would be a dashed related to Rhinoceros but then again, not related because of the tails. Quite different.

## /// CHAPTER FIVE: ANIMALS OTHER THAN

## DINOSAURS WERE ALSO EXISTED ///

As mentioned before about the Dinosaurs were large and even large dragon fly as tall as five feet if it was standing up. That is because of the oxygen. We already review this topic. But the proof of the giant animals were noted. Fossil hunters, both professional and amateurs have discovered such huge animals. The list starts here.

Besides the Giants of the Bible of Genesis chapter 6 and others such as Goliath who was slayed by a boy named David who went on to become King. King Og was another giant as said in Deuteronomy 3:11.

This is about animals and we will get to discuss humans in another book in near future.

Besides the Giant Dragonfly, there are several species.

**Fossilized Giant Tarantula.** There is a photograph evidence to compare to a human adult hand, it would need to be about 3 to 4 human hands to lay down to compare. That

would be palm to palm, not fingers to finger. That is quite large body, not counting the leg-spans.

**Giant Cockroaches.** This shows they were once at 18 inches long! That is a foot and half in length! As big as a human foot! EEK! They discovered that in fossils.

**Giant Centipede.** A giant fossilized centipede that was measured at a very long eight and a half feet. It was discovered by paleontologist in Germany.

**Giant Bison** or known as **Bison latifrons**. Large Bovine type that is related to yak, **Buffalos, Bisons, Cattle, Bulls**, etc. It was much bigger than the modern day cousins. It has 84 inches span of their horns compared to modern **American Bison's** 26 inches. It was also related to another giant Bovine called, "**Giant Africa Buffalo**" or known as **Pelorovis**. A report said to be as tall as 12 feet!

**Glyptodon.** A giant exactly looked like a supersize version of its distant relative, the armadillo; the armored cute looking animal. They said it went extinct around the same time as the Woolly Mammoths did. Was found around Coastal states including Texas and Florida.

**Megalonyx.** They were Giant Ground Sloth. Must be sleeping off too much and died out. No, could have been some other reasons but because of its size, lack of oxygen may have been the factor.

**Castoroides.** They were **Giant Beavers** which weighted an overweight average of 125 pounds compared to modern known species called, **North American Beavers** which stands at 44 pounds.

**Gigantopithecus.** This was a giant gorillas found in Eastern Asian such as China. It was the real-life Big Foot.

## //OXYGEN PLAYED THE ROLE//

Oxygen during the Biblical times have played the role that animals had to live larger to survive because of the increased oxygen. If it was the case, being small is not survival therefore, they had to be larger. God made animals to be larger for this purpose to survive. After the Great Flood, oxygen reduced due to the water canopy enclosure the Earth were drenched during the Great Flood.

### **Genesis 1:6 to 7 –**

**6** And God said, **Let there be a firmament in the midst of the waters, and let it divide the waters from the waters.**

**7** And God made the firmament, and divided the waters which were under the firmament from the waters which were above the firmament: and it was so.

This clearly explained there was water in the sky! Its purpose was to shield Earth from harmful radiation. There were much more water in the air. We humans live in the *Troposphere* which is 6 to 12 miles of breathable air with merely 79 percent nitrogen and merely just under 21 percent oxygen in modern world or Post Flood Era. This you would also can feel humidity on hot day or even cold day. Water in Pre-Flood Era was in this possibility layer called *Exosphere*. This layer has extremely low air molecules resides in this layer. It is the outermost of all layers residing at 6,200 miles high. Near the God's number 7. Likely this is the layer after all that had water. There is no water at the moment because it was all drenched down to Earth during the Great Flood. But question remains, where did the rest of the water go? Glaciers, new oceans, and in permafrost and cauldrons and caverns underground.

Because of the Great Flood, oxygen was changed. Largely due to mass reduction of plantation especially Flora. 100 percent of nature were wiped out. God did not ask

Noah to bring in plants to grow. Just food for every beasts in Noah's Ark and for himself and his family for about a year. Now, because of this, it was nature hid their seeds in the ground and unfortunately, some species were wiped out. Such as ***Wollemia Pine*** Trees and ***The Ancient Redwood*** which stood a massive 890 feet tall which dwarf the tiny modern champion, the ***Giant Redwood***.

Like animals, trees were also wiped out by fire, volcanic ash from eruptions. Mount Saint Helens in State of Washington is excellent example of how nature were wiped out in that region that fateful day in May 1980. However, researchers were in shock to see nature fought back within a good fifteen years and it is fully blusful of nature again. How that be possible? Like the Creation week, it was much faster thanks to oxygen enrichment that time plus water was also at the base of the ground because it was no rain from the Creation till the Great Flood began.

Asteroids were also responsible but did not wipe out the Dinosaurs. It occurred several different times. Likely the Winslow, Arizona Meteor Crater was bombarded at different times or may have occurred during the Great Flood. Another factor could have occurred was at the same time as the Sodom and Gomorrah attack. God warned at the time for that twin cities metropolis to be destroyed.

Water was also the factor to shield asteroids, meteor showers, and meteorites attacking Earth. Water buffered the speed. This is why the Arizona bombardment was attacked much slower than previous thought according to secular scientists and they did not realize why.<sup>54</sup> It was the water firmament in the *Exosphere* that slowed down any alien objects attacking earth.

Water firmament in Exosphere was necessary to block harmful radiations of various kinds such as visual rays, x-rays, and solar gamma rays. Without it, we are now only left with Ozone Layer. That was the remaining of a layer with water but it is all gasses protecting us.

---

<sup>54</sup> **Mystery of Arizona's Meteor Crater Solved.** By Robert Roy Britt, Space.com, March 9, 2005, 01:00 pm ET, <https://www.space.com/834-mystery-arizona-meteor-crater-solved.html>

Originally Earth was totally made of water. Entire planet was water. And God made Earth which took a couple of days as said in Genesis 1:2-10. Therefore, today, much of the water has vaporized or is on the ground we call oceans, lakes, rivers, and other rivers which are in the sky, known as Atmospheric Rivers. This remains in the sky these days and there is a photo proven they are for real.<sup>55</sup>

The changes in the astrosphere reduced oxygen. There is a liquid oxygen and this may have been partial cause of reduction of air oxygen. But it was the flora nature wiped out during the Great Flood. When the Flooded were reduced, slowly nature came back. The olive leaf that the Dove returned to show Noah in Genesis 8:11 was already growing. Olive Trees grow between 10 to 40 feet tall and it is related to Evergreen Trees. It is known that a pine cone takes 7 years to grow into a tree. But Because of oxygen were slowly reducing after the Great Flood, the Olive Tree was growing pretty rapid immediately after the Great Flood. Likely a young Olive Tree with merely inches tall and already have leaves on. This is when the Dove Noah send out found it and pluck it and flew back to the Ark. The Olives are known to grow quickly then slows down. Therefore, it is possible one of the first trees grew naturally after the Great Flood by itself, not by Noah planting.

Now, as you know about giant animals, ***Dinosaurs***, and even Trees were quite large at the time. Even fossilized ***Giant Cottonweed*** grew as tall as a short tree.

## //OUR PRESENT DAY AND FUTURE TILL CHRIST RETURNS//

Today, because of pollution, nuclear bombardments in 20<sup>th</sup> and 21<sup>st</sup> Century, human invasions, human encampments that forces animals to flee, this reduces animal

---

<sup>55</sup> **Rivers in the sky causing widespread chaos in California.** By Doyle Rice, USA TODAY Published Feb. 20, 2017 1:08 p.m. ET, Updated Feb. 20, 2017 8:40 p.m. ET. <https://www.usatoday.com/story/weather/2017/02/20/atmospheric-rivers-california-storms-floods/98154504/>. Retrieved 03 August 2018.

population but one thing is growing much faster: insects. Bugs, mosquitos, flies, with exception of Honeybees, they are on the rise much faster.

Clearly in this time frame, survivalism of animals are smaller. But with the Lord Jesus Christ coming, insects are in check. In another word, God will control the number of insects. It is a fact even a nuclear bomb does not wipe out cockroaches. It is a fact.

Therefore, what remains left are just a few ***Dinosaurs***. Treat gently! I am a Conservative but we are responsible to breed animals and be husbandry to all surviving animals. We did not breed ***Dinosaurs***, did not breed the ***Dodos***, and certainly did not breed ***Megalonyx*** and ***Carolina Parakeet*** at all. It is a lesson we all need to learn to take care of animals.

We need to domesticized all animals and leave rest in the wild but with the domestic breeds, just enough to be a nanny till they are strong enough to live in the wild. Maybe just a couple of weeks or so otherwise, they have not learned instant survivalism. We are doing that with the ***American Bald Eagle***, ***California Condor***, and ***American Buffalo***. They are coming back. We need to ban hunting such animals. I am a pro-gun supporter but for game or recreational hunting, it is advisable not to hunt animals but only for self-defense against predatory humans and predatory animals only. Animals are not meant to be trophies but for human consumption only!

#### **Proverbs 12:27 –**

The slothful man roasteth not that which he took in hunting: but the substance of a diligent man is precious.

***Dinosaurs*** may be a few left today, preserve it! Or your name will be forever on Wikipedia and the internet being the person who killed the last certain species of animal from Earth.

## //DEEXTINCTION//

Cloning is playing God. We advise never to do that. They tried that with Dolly and she did not survive at all. Dolly was very ill and had to be put down not too long afterwards. A normal sheep lives to be about 11 years but Dolly lived to 6.5 years. She had arthritis and lung disease. They had to put it to sleep.<sup>56</sup>

There are a few number of research trying to clone extinct animals by using current animals in the mix. For this instance, like with Dolly who was a **Sheep** was also mixed with a **Ewe**. **Woolly Mammoth** is one example they are trying de-extinct by trying to revive by using a modern **Asian Elephant** for this experiment.<sup>57</sup>

We are supposed to tend the Earth as said in the Bible, not de-extinct animals. Once they are gone, they are gone. We are not supposed to play gods. Leave Godliness to God who is the Creator of Heaven and Earth of Genesis Chapter 1.

## //WE ARE SUPPOSED TO BE THE KEEPERS OF THE EARTH//

We are supposed to take care of Earth and breed animals as they are to survive. Because of our sins and being wicked have cause animals to go extinct. Mass hunting spooking a mass, flock, or herd of animals over the cliff to their deaths. Of course they do the same thing with herds of cattle butchery at modern processing plants to provide meat packages at your favorite grocery stores near you. No differences but the difference is when they do not breed as they should. They are slaughtered with an increase annually due to the growth of the population and greater demand such as now offering charities to give food to countries with people who are starving for food because

<sup>56</sup> **Dolly (sheep)**. By Wikipedia, [https://en.wikipedia.org/wiki/Dolly\\_\(sheep\)](https://en.wikipedia.org/wiki/Dolly_(sheep)). Retrieved 03 August 2018.

<sup>57</sup> **Woolly Mammoth DNA Successfully Spliced Into Elephant Cells But Don't Expect Mammoth Clones Anytime Soon**. By Sarah Fecht, Popular Science, March 24, 2015, <https://www.popsci.com/woolly-mammoth-dna-brought-life-elephant-cells>. Retrieved 03 August 2018.

of anarchy in their governments or war torn regions such as North Korea and dictatorships that forbid sharing foods with people.

There are far fewer animals per human this year than during Biblical Times. With meat capacity such as from **Dinosaurs**, and **Giant Mammals** thanks to richer oxygen complexion in Pre-Flood Era and sometimes after the Great Flood to around Dark Ages. Those were the times there were more animals and vegetables and fruits per human than after Dark Ages to Modern Age (Present day).

Throughout the book, the answer lies within that it was for games, competition, barbarian and anarchy government format that hunting was in the “Wild West” forum until late 1800’s that it was necessary to establish societies and foundations to recognize loss of species that went extinct during the Renaissance Era to last Century such as **Dodos**. When they discovered Dodos, they just missed their opportunity to study and save them. This is may be why they had to attempt to preserve. Zoologists, Environmentalists, and Scientists and Animal and Nature Biologists were learning how to preserve animals.

Zoos were only been around about 5000 years. But the types of zoos in Old Testaments such as King Ur had was a lion preservation. Likely as a pets, not breeding zoo. But breeding of **Sheep** and **Lambs** were common because of God’s requirement as a sacrifices for their sins. The evidence showed clearly with them were Biblical men including Abel, Job, and Abraham.

#### **Genesis 4:2 –**

And she again bare his brother Abel. And **Abel was a keeper of sheep**, but Cain was a tiller of the ground.

The word, “Keeper” clearly means he was a breeder, a farmer who raised the **Sheep** and used the sheep for honoring God in sacrifices.

Abraham was wealthy and had a large farm. He was wealthy. Likely including **Sheep/Lambs**. But the verse said Cattle. Likely he had other animals.

**Genesis 13:2 –**

And Abram was very rich in cattle, in silver, and in gold.

Noah was perhaps most famous zoo keeper of all time. He was told to preserve all animals as said in Genesis chapter 6 through Genesis 8:20.

The purpose of the 7 clean animals were preserved other than just the pairs of each gender of the species that were lead to the Ark was for sacrifices as said in Genesis chapter 8:20...

**Genesis 8:20 –**

And Noah builded an altar unto the LORD; and took of every clean beast, and of every clean fowl, and offered burnt offerings on the altar.

But Noah preserved and breed them after the Ark rested for good.

**Genesis 6:19 to 22 –**

**19** And of every living thing of all flesh, two of every sort shalt thou bring into the ark, to keep them alive with thee; they shall be male and female.

**20** Of fowls after their kind, and of cattle after their kind, of every creeping thing of the earth after his kind, two of every sort shall come unto thee, to keep them alive.

**21** And take thou unto thee of all food that is eaten, and thou shalt gather it to thee; and it shall be for food for thee, and for them.

**22** Thus did Noah; according to all that God commanded him, so did he.

**Genesis 7:8,9, and 14 to 16 –**

**8** Of clean beasts, and of beasts that are not clean, and of fowls, and of every thing that creepeth upon the earth,

**9** There went in two and two unto Noah into the ark, the male and the female, as God had commanded Noah.

**14** They, and every beast after his kind, and all the cattle after their kind, and every creeping thing that creepeth upon the earth after his kind, and every fowl after his kind, every bird of every sort.

**15** And they went in unto Noah into the ark, two and two of all flesh, wherein is the breath of life.

**16** And they that went in, went in male and female of all flesh, as God had commanded him: and the Lord shut him in.

**Genesis 8:15 to 20 —**

**15** And God spake unto Noah, saying,

**16** Go forth of the ark, thou, and thy wife, and thy sons, and thy sons' wives with thee.

**17** Bring forth with thee every living thing that is with thee, of all flesh, both of fowl, and of cattle, and of every creeping thing that creepeth upon the earth; that they may breed abundantly in the earth, and be fruitful, and multiply upon the earth.

**18** And Noah went forth, and his sons, and his wife, and his sons' wives with him:

**19** Every beast, every creeping thing, and every fowl, and whatsoever creepeth upon the earth, after their kinds, went forth out of the ark.

**20** And Noah builded an altar unto the LORD; and took of every clean beast, and of every clean fowl, and offered burnt offerings on the altar.

The commandment clearly states we are to breed and farm the animals. This is to reproduce our food sources. And keep the food chain “web” as I call that, intact.

It goes way back to Adam. Adam was the first Man on Earth and God taught Adam farming, breeding, and even seeding.

**Genesis 2:15 –**

**15** And the LORD God took the man, and put him into the garden of Eden to dress it and to keep it.

This clearly states that God appointed Adam to be the keeper of the garden. It means to breed animals, to farm. Now, we think of the word “Garden” applies to two different meaning. Gardening as you put plants and flowers in your front and back yard. That is one meaning. Gardening also means you seed in the ground maybe some pumpkins, corn, sunflowers, strawberries, whatever you want to grow every Spring or in the Sub-Tropical or Tropical region, twice a year.

Both assessment are correct. Likely it was both types of gardening God had Adam to learn how to dress the garden. And keep it. Now, perhaps also keep the animals. Meaning breeding. Of course, animals and humans have reproduction “biological clocks.” So, naturally they did reproduce but likely with Adam’s help before the sin. After the sin, God kicked Adam and Eve out of the Garden. Ever since many animals

became wild with exception of the Great Flood that the pairs were chosen plus seven pure animals.

Because of this reasoning, many animals went extinct because of careless and reckless of humans with hunting.

Not to forget that the Earth groan because of man's sin. Yes, it is still human's fault because of sins and it affected the Creation. Animal disease, dying off, mass outbreaks, etc. The more we sinned, the more the Earth groan. There has been an increase of earthquakes, volcano activities, forest fires, and more.

**Romans 8:19-22 –**

**19** For the earnest expectation of the creature waiteth for the manifestation of the sons of God.

**20** For the creature was made subject to vanity, not willingly, but by reason of him who hath subjected the same in hope,

**21** Because the creature itself also shall be delivered from the bondage of corruption into the glorious liberty of the children of God.

**22** For we know that the whole creation groaneth and travaileth in pain together until now.

God clearly stated it all right here:

**Genesis 3:17 –**

**17** And unto Adam he said, **Because thou hast hearkened unto the voice of thy wife, and hast eaten of the tree, of which I commanded**

thee, saying, Thou shalt not eat of it: **cursed is the ground for thy sake; in sorrow shalt thou eat of it all the days of thy life;**

Read verse 22 In Romans that states more focused point of subject here. The whole creation which includes not just Earth but animals, nature, even the universe including stars, planets, etc.

And in Genesis chapter 3, verse 17 clearly said about cursed the ground. Meaning earth is groaned. God further done this with the Great Flood, Great Global Famine, and the Fire of Sodom and Gomorrah.

Why you think Mars which was once a lush blue and green planet very much like Earth held all the evidences that it had water, nature, etc? Rovers and satellites around Mars have discovered it had life at one time. I believe with the Great Flood occurred, Mars was all dried up at that time. It only had nature for merely 2000 years alone. Not long. Never mind the Face or Spoon on Mars. That was just merely Pareidolia. Trick to your mind by seeing objects. Anyway, I would call that ripple effect because once you sinned, it affected others. For instance, say, a man committed adultery, his wife will sense that when it happen or maybe a something happened to a child, the mother will know that when she is miles away. That is what affected everything. Our sins affected animals and nature.

Excellent examples regarding to California earthquakes occurred because of man's sins. Hollywood, Liberalism, Homosexuality are paramount in California, etc. This is why earthquakes occurred but also droughts, forest fires, landslides, mudslides, and even economic hardships. That is because they rebelled against God. Sodom and Gomorrah was yesteryear's California.

Indonesia was another with the massive 6.9 earthquake in 2004 that killed 230,000 people in a good number of countries in the 10-40 window which is a tinderbox but also a composition of majority of cults including Muslims, Hindu, Buddhism, and Atheists and Terrorists.

The whole bible compels complete stories after stories of how God judged the nations for its sins. Yes, animals are judged too because they are part of that nation. So, God can wipe out animals from that nation.

Droughts were heard of. Under Joseph in Egypt. Because God promised not to flood the world again. This second global judgement was drought for 7 years.

**Genesis 41:56 –**

And the **famine was over all the face of the earth**: and Joseph opened all the storehouses, and sold unto the Egyptians; and the famine waxed sore in the land of Egypt.

It was truly global famine. Likely both livestock and humans were greatly reduced perhaps more than fifty percent. This was the second wipe out of the **Dinosaurs**. Clearly they were wiped out. The larger the animals, the more likely they were wiped out. Others survived because farmers, breeders kept them in their zoos and farms.

You have to understand **Dinosaurs** need massive amount of food for their needs daily. Some of those **Dinosaurs** in fact had stones in their stomach. That would herbivore **Sauropods**. They were massive than carnivore **Theropods** including our favorite **Tyrannosaurus Rex**. This may have account why Job who may have lived after Joseph's life having experience seeing such cryptids in his lifetime.

In fact, Job may have had breed **Behemoths**-a likely herbivore Sauropod. But his original livestock was wiped out as said in Job 1:3. However, on that list, it mention nothing of Dinosaurs. Just 7000 **sheep**, 3000 **Camels**, 500 yoke of **Oxen** (meaning 1000 **Oxen**), 500 female **Donkeys**. This means he may have had the largest livestock ever in history of Mankind. To allow those number of animals to survive, he would need

2100 acres for just **Sheep** and **Rams** (male studs) alone,<sup>58</sup> and thousands more for each animal group he owned. 6000 acres for the **Camels** to graze.<sup>59</sup> There are no information regarding how much land an ox needed but they are Cattle breed. So, likely 2 to 4 acres per Ox. 4 Acres for dry season. Even 30 acres per cow if there is winter season. So the number vary according to this article in [PasterPro.com](http://PasterPro.com). Now. A thousand Oxen Job owned which requires 4000 acres. Maybe more because the Middle East is very much of airy dry like a desert. So, this increase to 30 per head. That means 30,000 acres. The 500 she **Donkeys** perhaps needed more than a **Cow** would eat. But needs to roam around. That would be 2.5 acres per head.<sup>60</sup> That amount to 1,250 acres for the **Donkeys**. The total is over 43,000 acres. 67.2 square miles! Now, that is three times the size of Manhattan, New York. Likely the entire New York City including the Bronx, Queens, Brooklyn, Riker Island, and Staten Island.

This showed how much Job loss all the livestock. This case, it was Satan slaughtered it all for attempting to disrupt Job's faith in God.

Because of what Man has done to **Dinosaurs**. It is too late. But not too late to save all the other animals that are on the endangered and critical lists that we are supposed to tend.

## //SOLUTION//

There are solutions. Already we are working on having zoos, preservations, animal reservations, state parks, national parks, county and town parks, federal, state, and providence laws enacted to ban hunting animals that are on the list. There are already good organizations that help to preserve wild life. There are television programs and cable channels on nature such as **Animal Planet**, Discovery, National Geographic

<sup>59</sup> **All About Camels** <http://www.britishllamasociety.org/camels/camels.html>, retrieved 05 August 2018.

<sup>60</sup> **How much pasture for 2 donkeys?** A forum, Permies.com, <https://permies.com/t/4330/critters/pasture-donkeys>, retrieved 05 August 2018.

Animals, and of course, magazines and societies that support preservation such as National Geographic Society.

However, it is not enough. We need to educate people to preserve nature. However, it has been a terrible 6000 years we come to this point already so late. Even 4000 years since the Great Flood. We could have done better. But no. Cruel, bully, beastly, abuses, hunting, anarchy, and disobedient cause destruction of animals. Like the poachers do to **Elephants** and **Rhinoceros** as they did to **Woolly Mammoths** 4000 years ago.

What we need to do right now which is much better: personal salvation. We need to focus on the Lord Jesus Christ. After all, God-the Tribune God including the Father, the Word, and the Holy Ghost created us and saved us. We need to focus on God now that we have gone too far with Earth destruction because of the curse God set because of Adam. We are equally guilty with Adam because we inherited from Adam. Do not worry about the animals. There are animals in heaven after all! Praise the Lord!

# JOIN WITH GOD AND THE ANIMALS IN HEAVEN

That is correct, let's join with God in Heaven and the animals in Heaven. However, to be sure you are going to Heaven, you need to accept the Lord Jesus Christ, the Son of the Living God who died for you. Jesus loves you.

And yes, you will be able to enjoy seeing the animals in Heaven. You will not have time for them anyway because you will be busy rejoicing in the Lord before God Almighty forever in the Upper Room along with the rest of the Believers and the angels.

**Isaiah 65:25 –**

**25 The wolf and the lamb shall feed together, and the lion shall eat straw like the bullock: and dust shall be the serpent's meat. They shall not hurt nor destroy in all my holy mountain, saith the LORD.**

This is an excitement for animal lovers. Environmentalists need to heed this as well. Not to blame God but only blame themselves. This is correct because if they do not accept Jesus Christ, they are going to the worst environment ever called Hell. It is a place of fire and torment forever.

This is where the rich man of Luke 16 is located. This is where many unsaved souls are placed forever in the fire. Permanently. Horrible place where wicked and evil people are placed forever. Wicked people who did not care are gone for good. Starting with the first anti-animal caretaker. His name was Cain. This is where the name came from. Slain; Cain. Slain means murder so this is where the name came from.

However, there is a place you can escape. And it is called Heaven. You need to believe that is true. And never know that is where the Dinosaurs are presently. The Bible did not say specifically what else animals that are in Heaven but we know for sure for a fact that there are animals in Heaven and of course angels. The Bible mentioned over a hundred times in the Old Testament and likewise way over a hundred times in the New Testament.

And there are people in Heaven. The original Rapture occurred when Jesus died on the Cross.

**Matthew 27:52 –**

And the graves were opened; and many bodies of the saints which slept arose,

Then we will have a New Testament Blessed Hope when Jesus returns. Bolded to show where in verse:

**Titus 2:13 –**

Looking for that **blessed hope**, and the glorious appearing of the great God and our Saviour Jesus Christ;

**Matthew 24:35 to 42 –**

**35** Heaven and earth shall pass away, but my words shall not pass away.

**36** But of that day and hour knoweth no man, no, not the angels of heaven, but my Father only.

**37** But as the days of Noah were, so shall also the coming of the Son of man be.

**38** For as in the days that were before the flood they were eating and drinking, marrying and giving in marriage, until the day that Noe entered into the ark,

**39** And knew not until the flood came, and took them all away; so shall also the coming of the Son of man be.

**40** Then shall two be in the field; the one shall be taken, and the other left.

**41** Two women shall be grinding at the mill; the one shall be taken, and the other left.

**42** Watch therefore: for ye know not what hour your Lord doth come.

Jesus will return! Amen! To be saved, you need to be saved. Only way is through Jesus Christ.

**John 14:6 –**

Jesus saith unto him, **I am the way, the truth, and the life: no man cometh unto the Father, but by me.**

Jesus is the only way! He is the Shepherd. If you love animals and you know you took care of them. Even just a pet at your home. A dog, cat, or even a parakeet. “Pretty bird, pretty bird!” it kept saying, right? We instead say, “Praise God, praise God!” Amen!

Jesus is the Lamb of God.

**John 1:29 –**

The next day John seeth Jesus coming unto him, and saith, Behold the **Lamb of God**, which taketh away the sin of the world.

Jesus is the Shepherd of all Believers.

**John 10:11 and 14 to 18 –**

**11 I am the good shepherd:** the good shepherd giveth his life for the sheep.

**14 I am the good shepherd,** and know my sheep, and am known of mine.

**15 As the Father knoweth me, even so know I the Father: and I lay down my life for the sheep.**

**16** And other sheep I have, which are not of this fold: them also I must bring, and they shall hear my voice; and there shall be one fold, and one shepherd.

**17** Therefore doth my Father love me, because I lay down my life, that I might take it again.

**18** No man taketh it from me, but I lay it down of myself. I have power to lay it down, and I have power to take it again. This commandment have I received of my Father.

So, the only way to salvation and Heaven is through the Blood of Jesus Christ. This is what Jesus did. He died for you on the Cross. He died for everyone. We all fall short of glory of God. Yet, Jesus died for you and me.

**John 3:16 –**

For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.

**Romans 5:8 –**

But God commendeth his love toward us, in that, while we were yet sinners, Christ died for us.

Jesus is the Lamb of God who died for you and I. Quite clearly. Amen! Dinosaurs may be going and going away by extinction but you have a soul and you have a chance to escape the damnation of hell by accepting Jesus Christ as your personal Lord and Savior.

You cannot enter Heaven because of your sins. That is matter of fact because sins are not permitted in Heaven. This is why Jesus died for you to take your sins away.

**Romans 3:23 –**

For all have sinned, and come short of the glory of God;

We cannot enter Heaven with our sins so we must surrender our sins and our lives by giving to Jesus Christ when you confess.

**John 14:6 –**

Jesus saith unto him, **I am the way, the truth, and the life: no man cometh unto the Father, but by me.**

You need to be Born-Again in order to enter in Heaven as said in John chapter 3.

**John 3:3 to 7 –**

**3** Jesus answered and said unto him, **Verily, verily, I say unto thee, Except a man be born again, he cannot see the kingdom of God.**

**4** Nicodemus saith unto him, How can a man be born when he is old? can he enter the second time into his mother's womb, and be born?

**5** Jesus answered, **Verily, verily, I say unto thee, Except a man be born of water and of the Spirit, he cannot enter into the kingdom of God.**

**6** **That which is born of the flesh is flesh; and that which is born of the Spirit is spirit.**

**7 Marvel not that I said unto thee, Ye must be born again.**

Like the day of Noah... so will be the Son of man—Jesus Christ will return.

**Matthew 24:37 –**

**But as the days of Noah were, so shall also the coming of the Son of man be.**

Back the day when Noah was called to build the Ark along with his 3 sons, it was about salvation. Noah and the pairs of each species were called into the Ark plus 7 clean and 7 uncleaned to enter the Ark. Because of Noah was just in his Faith in God, he was spared and the rest of the people were not. Sure, there were a few people who even believed in God were not spared because of their choice to stay worldly. God rejected them. Why, the answer was right there with Noah's grandfather, Methuselah who lived to be 969 years old when he died. He died just before the rain began. He was faithful. (Genesis 5:27).

The proof was there with some people who had faith in God but did wrong. See this scripture.

Genesis 6 explained clearly. Yes, they were fallen angels but there were even carnal Believers. The fallen angels is questionable. The sons of God in King James can be clearly means Believers. Man at the time were big. Recalled **Giant Dragonfly** at the length of 5 feet long? Currently they are roughly 2 to 4 inches long. Therefore, Man were giant. Sure, fallen angels may be the answer because angels were giants. But you have to look elsewhere about the Angels. Jesus even hinted that the angels cannot fornicate.

**Luke 20:34-36 –**

**34** And Jesus answering said unto them, **The children of this world marry, and are given in marriage:**

**35** But they which shall be accounted worthy to obtain that world, and **the resurrection from the dead, neither marry, nor are given in marriage:**

**36** **Neither can they die any more: for they are equal unto the angels; and are the children of God,** being the children of the resurrection.

So, the answer is, they are not fallen angels having fornication. It was godly men married women who are *NOT* equally yoked.<sup>61</sup> (Please read **Foundation of Cs in Relationship and Marriage** E-books for this purpose. Called *Common*.)

It was men. Believers in God. Not yet Jewish. Here is another proof you need to focus on New Testament. Not fallen angels.

**Matthew 5:9 –**

**Blessed are the peacemakers: for they shall be called the children of God.**

Jesus spoke of that verse. Children of God. He was referring to humans. Paul wrote that too.

---

<sup>61</sup> **Foundation of Cs in Relationship and Marriage** By Mark Falso. Self-Published. 2017. <https://thelordsclub.weebly.com/media-and-e-books.html> Retrieved 23 August 2018.

**Romans 8:14 and 19 –**

14 For as many as are led by the Spirit of God, they are **the sons of God.**

19 For the earnest expectation of the creature waiteth for the manifestation of **the sons of God.**

Anyway, they were believers but they were filth. This is why your sins you have and you are a Believer, you cannot enter Heaven with it. You must ask for forgiveness from God. God does not welcome sin.

**Romans 3:23 –**

For all have sinned, and come short of the glory of God;

You are a sinner. You cannot enter the Kingdom of God as said in John 3:3. Therefore, you need a savior who can bring you to Heaven. His name is Jesus Christ.

**John 3:16 –**

For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life.

This means God loves you so much! He send Jesus Christ, the only Son of God who never sinned, never created, and never made. Jesus came through virginal birth in the flesh to be equal to us and be that Adam, the Last Adam to die on the Cross for our sins. Jesus was buried and risen from the Dead to beat Satan. Praise God. So, when

you believe in Him, meaning you accept Jesus as your personal Lord and Savior, you are to repent and obey God.

When you do, you will be admitted to Heaven. Jesus will come like a thief. Not a **Chupacabra!** Jesus will come and rescue you like God rescued Noah.

That is what Jesus meant in Matthew 24:37. You need to be ready and have faith. Have your lamp oil filled and be on fire for God. Be filled with the Holy Ghost. Without God, you will be left behind. Without faith and believe in God, you are still going to be left behind.

Do you want to be spared in the future? Repent for the Kingdom of God is at hand.

#### **Matthew 4:17 –**

From that time Jesus began to preach, and to say, **Repent: for the kingdom of heaven is at hand.**

Repent means change. You need to change your life. Stop looking at porn, stop looking at pretty girls. Stop drinking, stop drugging yourself, stop your worldly music. Even you are a Christian and you went to your church your daddy who is the pastor and now you go sing worldly songs and get tatted up and all? Repent! Stop being narcissist. Stop being stupid. Stop being a Liberal. Stop being an abortionist. Stop voting for Satanic politicians because when you vote, you are guilty of the crime they have done. No matter what. Any sins you do are sins, period. This quite means your sin are horrific. Remember that. Jesus is Lord!

Any of those sins, you will be left out. Even you are a Christian, your sins are not welcomed. You have to give it all to Jesus Christ. He died for you. It is like Christians who had big hearts giving a Christian man opportunity to be free of jail. His name was the Late Chuck Colson. Christians were willing to be in jail for Colson. Jesus was willing and He did go to jail and was beat up and was crucified on the Cross. Painful.

Mankind did this to animals. Now, image mankind did to people. We lost our beautiful children, spouses, sisters/brothers to crazy people. How you feel? Only way is Jesus Christ and you will be free. Jesus is the Way.

Are you willing to accept Jesus Christ as your personal Lord and Savior? Rejecting Jesus will place you on your way to the Lake of fire forever. You will be in Hell. Not hell, Hell, period. Hell is eternal place totally uncomfortable for sinners who reject Jesus Christ as Lord and Savior. Even those who never heard of Jesus Christ. Sad but its true. Therefore, you might want to accept Jesus sincerely in your heart. Not because you want to escape and go "Whew." And laugh. No. You need to be honest with God and be truthful to surrender your life and be saved.

Are you willing to accept Jesus? If yes, let's pray.

Heaven Father,

Right now I realized after hearing the Truth, you made awesome world, animals, nature, life. Including my life. I realized I am a sinner and I want to be saved. I do not want to be in the fire for good. I like to be free and rejoice in the Lord forever. Lord Jesus, I realized you are the Lord and Savior who died on the Cross for me. Please forgive me for my sins and I give you my sins. I repent of my sins and my old ways and is going to obey you. I accept you Lord Jesus as my Lord and Savior on this day this moment in Jesus's name. Amen.

Congratulations! You are now truly Born-Again Christian and please find a true good KJV Bible believing church near you and fellowship with them every time they have service. And get baptized immediately as well. Also get a KJV (King James Bible) so you can read the Scriptures daily. Read it every day for spiritual growth.

As a new Christian, you can still love the animals and in Heaven you will still love animals that are in Heaven. Many new ones as well.

God truly bless everyone in Jesus' name!

## ///ABOUT MARK FALSO///

Mark Falso is Born-Again Christian since March 28, 1988 at 10 AM at his residence through his Brother, Phil who had his Bible open daily and this is how Mark learned about Jesus Christ.

Mark has strong interest in Paleontology--the study of fossils especially with Dinosaurs. Mark also has strong interest in Dinosaurs itself as well as Cryptozoology. The study of hidden animals.

Mr. Falso has no college degree in Paleontology, Geology, or even Divine however, by faith in the Lord Jesus Christ and reading the Bible, reading books, internet, this what brought the book in Mark's opinion.

Now, Mark is available to speak for your church. Mark can set up Deaf ministry or just to preach or even to speak about Paleontology/Dinosaurs.

Please contact Mark at [bigheartministries@yahoo.com](mailto:bigheartministries@yahoo.com) and he will get back to you and you can make arrangement for Mark to speak at your church.

Dinosaurs Are Still With Us.
